

## BLUMER'S MONITORS (PAID LIARS)

One of the tactics of corrupt guardians nationwide is "demonizing" a person who is a loved person of one of the guardian's "clients" (victims). If the loved person is complaining about the lack of attention by that guardian, the lack of care or the waste of money by the guardian, the guardian (person or estate) will make up lies about the family member: mother, father sister, brother, wife or husband. The guardian will use those lies to restrict or denying visits with their loved one. If the family uses legal action, the corrupt guardian will simply hire a lawyer and charge the victim, but the family has to use their own money for their lawyer.

Mother's second guardian of person, pam blumer, hired her husband/lawyer bill (friend of jaskowiak) as her lawyer (for no reason other than to make more money for them), he hired several lawyers at his law firm, blumer kept a "care manager" klock who logie had hired (why?). Every time, for any legal action or anything, every one of those lawyers (including jaskowiak) had to talk to each other and all would bill my Mother at about \$400 an hour. A real money making scam.

At the beginning of Mother's scam, the mafia knew how much I loved my Mother and would protect her from these vultures. They, including now pam blumer made up various lies about me, including I was giving Mother junk food that made her legs swollen. But, Mother had no food allergies or diet restrictions. I was the one who mother told that her legs were swollen and burning. The mafia basically ignored her health needs and the federal and state laws of guardianship and the rights and rules the AIP (alleged Incapacitated Person) has. Another order by weilheimer banned me from telling Mother anything about the guardianship or the scam on her for her money. That made sure Mother would not demand her rights and changes by the mafia.

Another lie the mafia made up was the never named "staff" claimed I made Mother "agitated" because of my visits and told her things I was not supposed to. My Mother and I always had a very close and loving relationship. She depended on me and trusted me for everything. Nobody ever asked my Mother if I did upset her in any way and the mafia refused to ever file a petition to prove their lies about me. All of those lawyers and not one had any guts to do so because they knew they were lying about me. They used their lies to restrict and or deny me visits with Mother. Blumer hired different friends to be "monitors" during my scarce one hour visits with Mother. One was brandee and the other was mary ellen. They sat about 3 feet from us making "notes" of we said. They wrote lies like they were told to do. My mother or I had to pay them or I could not visit Mother for a one hour visit. Travel time and time after I left were also added on. The mafia always refused to use a cell phone (free) or let me use one to prove I never broke any of the mafia visiting rules. I wonder why.

Both times in court, I exposed them as being frauds. They had NO special training to listen accurately, make notes accurately, writing the remarks down while continuing to listen, etc. Only a trained stenographer can do that. But, their lies were always taken as fact.

I demanded many times to blumer's lawyers for them to type their notes to be able to be read since they are for legal purposes. But, they refused. You can see these grown women cannot even print with readable writing. It is more like the printing by a child. Both paid liars claimed they did not know each other, but both referred to me as "adult son". Why? I have a name.

The adult then placed the paper in the machine & stated "I just thought  
you were nice & was your presence [for someone] (comp to say)"

J.H. asked "What have you been up to?" The adult son replied "Well I have been  
working in a nation wide show that people who have their land areas taken  
from them & turned into property, as a minister, I wanted this to see if I can  
be here & talk to people that feel lonely"

The adult son said "Well I mean I have a couple questions for you & you feel  
me to answer truthfully" J.H. said "Oh yes" The adult son asked "How do you  
want to go back home [stated an address, that I couldn't pick up]?" J.H. replied

"yes" The adult son continued "Would you like to see us more than you do now  
which is twice a week?" J.H. said "Oh yes", He then said "Would you like  
to have someone to come to live with you?" J.H. said "yes", He then asked  
"Would you like to go to your old doctor, like doctor [G. Hart] (I need your

to be your minister?" J.H. replied "Yes I would like to see how you work"

The adult son continued "Would you like to have a phone to call friends?" "Yes but  
don't feel lonely, why I don't want to have to entertain anybody"

The adult son replied "I understand but you deserve to be at home & feel  
me to do what you used to..." J.H. cut him off & said "What about  
then I need to be there?" The adult son replied "You don't need to be

there & if you ever need help, there are people that can come in to help you, you  
get \$40,000 a year to be here yet you don't get help because you're  
independent"

They kept talking about the subject & at 12:02 pm, I stated "I'm sorry

While going through the pictures, the adult son mentioned about a protest  
& old friend took four years, JH replied "It wasn't cold outside"; The  
adult son replied "Yes but I had warm clothes".  
The adult son gave JH a blank card to "write a letter for me" as  
stated by them.

As they were saying goodbye, JH asked "Will you call me?" The adult  
son replied "No, I can't. Don Blumberg won't allow it." & JH sighed.  
At 12:04, the adult son left.

As JH & I were reading Don's clothing, she stated "Just don't let them  
try to take you away, I love when you visit even if I can't enter town you, I  
enjoy your company"; I asked "Who is they?" & she replied "I  
don't even know!" & we both laughed. I reassured her "I'll come visit  
anytime I can & nobody is trying to keep me away from you" & she replied  
"Thank you".

Then, the adult son took the paper & went to attach it to Debra's

J.H. told me "Are you invited to see me too?" I replied "No, how, why do you think so?" She replied "I don't want them to visit you too, I don't know what to do" & I replied "You can see me whenever you want to" & she replied "Can you go with me to my room?" & I said "yes, sure" & she then replied "Thank you, thank you for all you do, I can't say" but she did something & someone because the adult son walked back in.

me clothes & left.

As J.H. & I went into the room, she stated "Thank you for coming  
ah with me & sorry for wasting your time" I assured her that  
was fine.

We exchanged the glasses & she tried to give me one more but I politely  
declined since it came from the adult son & I didn't want him  
see me walking around with it.

As we headed to the dining room, the staff members stated that I  
needed to let them know when I go out of the unit with J.H.; I was  
offended & stated "Oh I thought you guys knew since I've been doing it for  
a just few months" & J.H. was getting a little upset & stated "Don't  
be getting at her & try to prevent her from coming to see me". I assured  
J.H. that they were just worried about her whereabouts & she calmed down  
& then went down to eat.

As I left J.H. to eat, I went to approach the free staff to let them know  
that I will let them know when I take J.H. out of the unit & Debbie walked  
the staff were saying they were getting worried & that "One day he'll  
come in & shoot everyone" & they wanted the codes to the doors changed  
since he knew all of them.

I was asked if I was not scared & I said "Not really but now  
I think am". I advise them to tell my boss about it but they sta-  
ted that they didn't want to go to court.

As I left, I waved goodbye to J.H., she smiled & waved back
