

PAM BLUMER'S PAID LIARS (monitors)

In guardianship corruption, the guardianship mafia do not want people interfering with their crimes of ignoring the health and welfare of their "clients" (victims), while stealing their money and assets for themselves. Nationwide, it is a common tactic of those criminals to make up lies about the ones who love their loved ones in the scam and try to help them and care for them. Their tactic is called "demonizing". The mafia owning my Mother saw how much I loved and cared for her and was finding many problems and issues that they never saw, but even when notified about them, the guardians and/or their massive number of lawyers, totally ignored those problems and issues.

Pam blumer took over from the first guardian of person and estate, logie. She hired her husband lawyer, bill (conflict of interest), who was good friends of jaskowiak. Then bill hired many other lawyers in his law firm. All of them began the draining of Mother's money. They started to make up lies about me to use to restrict and deny me visits with Mother. The mafia first tried to claim I made my Mother's legs swollen because of the food I brought her when we used to be allowed to have lunches together. Mother never had any food allergies and no diet restrictions. Then the mafia claimed the never named "staff" claimed I "agitated" Mother during my visits and phone calls we used to be allowed to have before blumer stopped them. They never asked Mother if I ever got her upset with my visits. Mother and I always had a very close and loving relationship and she would be very angry at anyone who claimed I was.

The mafia decided to have a "monitor" (two of pam blumer's friends) sit with us and make notes. Mother/I had to pay for them or I could not visit Mother. Money was very tight with me because I was on welfare because I spent about \$100,000 on lawyer and other fees, including losing my house, to get Mother back to her home. There were times I could not see Mother for many months at a time. But, the mafia refused to let me use a cell phone to record our visits to prove I never upset Mother. A cell phone would be free. The mafia refused because then they could not deny me with Mother. The mafia used restricting and denying visits as punishment for constantly exposing the mafia corruption on Mother on my news website, protesting and on a nationwide radio show every week.

The 2 paid liars (brandee then mary ellen) had NO training to listen accurately, make notes accurately, while continuing to listen. Neither of them ever typed up their notes, even though they were for legal matters and none of the lawyers ever told them to type their notes. Their notes look like they were written by a child. They were told to make up lies against me. But the mafia refused to let me use a cell phone to prove I did not say anything that upset Mother.

Based on 16 hour days (8 hours for sleeping) from august 25 2021 when Mother was kidnapped from her home by her daughter, jsh, and logie, to July 2 when Mother was killed by the mafia with morphine, out of a possible 24,700 hours mother and I could have been together, the mafia only allowed us 224 hours at Mothers age of 96, 97, 98, 99..

Is THAT what the mafia considers a good guardianship that made Mother happy?
