

DEB KLOCK, "Care Manager"

Shortly after Mother was falsely declared to be "incapacitated" by the quack psychologist, ledakis, on August 6 2021, logie (first guardian of person and estate to Mother, good friends with jaskowiak) sent me a email saying klock wanted to meet Mother in Mother's home alone. He said klock wanted to get to know Mother without any interference from me. I knew something was not right. Logie was extremely anxious to get that meeting. A date was set for august 25, 2021 at 12pm. At that time the door bell rang and it was logie. When I opened the door, 2 local cops pulled me outside and wedged me between them on the front porch deck. Logie went inside. No klock was ever there. A few minutes later, my sister, jsh, who had filed the petition for guardianship (ownership) of Mother and her finances on May 18 (2 days after Mother's 96 birthday) arrived. She had a small suitcase and went inside and closed the door. I kept asking the cops what was going on, but they refused to say anything. About 5 minutes later, a tow truck arrived and took my Mother's car away. About 15 minutes after that, I heard my Mother crying/screaming "I don't want to go, I don't want to go". I was in a state of panic because I heard my Mother crying and nobody would tell me anything. About 10 minutes after Mother was taken away, logie came out and the 2 cops released me and they left. It was like they did some military operation. I kept asking logie why was my Mother taken, but he refused to answer. I asked him why my Mother's car was taken and he replied "It is my car now". I would later on during this 3 year money grabbing scam on Mother how much those in this guardianship mafia were criminals who only wanted to steal other people's money, just like any other common crook.

Klock has a long history of stealing and over drugging her victims as I hve been told by the families of those victims. Her lack of concern as a "care manager" for her victims proves she is no better than any other criminal. In her case, she seems to take great pleasure out of owning people, like they were toys. I have never met klock or talked to her. She has never emailed or spoken with me. But, she did with jsh because jsh was a member of this mafia. The fact was, logie was the guardian of person and it was his job to take care of Mother. He had NO authority to hire anyone he wanted and billed Mother for it, as did also all of the other guardians later, their lawyers, monitors, etc. Those people were to be paid by the person who hired them, not Mother.

1. My email to klock asking her why she never contacted me.
2. My email was blocked by Klock's or she stopped using it. It was the only email that was listed by her.
3. Another victim of klock and some of the others in the mafia, Leslie, wrote a letter to a detective, Shade, in the Montgomery County, PA DA office about what klock did to Leslie's parents and how klock abused them.
4. My letter to copestick, judge weilheimer's assistant, about me finding out klock was assigned to my Mother by logie as Mother's "care manager". I tell copestick about my Mother's very swollen legs that both logie and klock have ignored and that that problem could cause Mother's death at 96.
5. FYI per revoke klock's license to be a nurse by Mary Whitten for what klock did to Mary's uncle.
6. Documents by Coz, sister of Mary Whitten and they both tried to help their uncle who became the "property" of klock and her malpractice.

Klock,

Since you have been my Mother's "care manager" for 2 years, how come you have never contacted me about my Mother? Why is her condition physically, mentally and her happiness in such poor condition? What is your job if not to prevent that?

With her guardians past and present and you as Mother's "care manager" for 2 years, including by blumer, I constantly find many, many problems that are never fixed by you, logie and now blumer with her group of lawyers. For 2 years, my Mother has been kept in solitary confinement, in a sensory deprived environment, no phone, no visitors allowed, no mail allowed, no food for herself even though she has no diet restrictions and no food allergies, has not been allowed outside into society for 2 years, clearly has not been to a hairdresser for a long time and does not even have a table in her room. That current tiny thing on wheels is NOT a usable table. Mother has suffered greatly mentally, physically and psychologically under your "care", logie's and now blumer since May 2022. Mother is not happy at all because of the many lies by blumer and logie about me to deny me visits with Mother that she wants. She was a normal person, enjoying her daily life, driving a car, in her large 3 bedroom, 3 bath house in a gated community until she was kidnapped by logie and my sister just to get control of Mother's money, something my sister had tried many times before, but I always stopped them.

Since August 25 2021 to December 1 2023, based on 16 hours a day (8 hours for sleeping) out of a possible 13, 700 hours my Mother and I could have been together, weilheimer and the guardians, including you, have only allowed 219 hours together. It is well known how close my Mother and I have always been. She enjoys my company and looked forward to our dinners everyday at her home and the phone calls we had twice a day and our lunches we had 3 times a week at the prison until blumer stopped them in May 2022. Blumer has also denied every important holiday, including birthdays, Christmas, Easter, Good Friday, Mother's day, etc. Is this your ide of being a "care manager"? It is your job to know what Mother likes, wants and needs, especially under the law (attached).

Mother was never claimed to have any mental or behavior problems that would cause her to be a danger to herself or others. There is NO reason for her to be locked up as she

has been and to live like a animal in a cage. POW's have more privileges under the Geneva convention than my Mother. People in prison for all types of crimes have more privileges than my mother. WHY?

Fw: Guardianship Abuse Investigation

Marcel Reid of whistleblowers summitt is writing a letter as well. Fingers crossed this is taken seriously

Subject: Guardianship Abuse Investigation

Dear Detective Shade

My name is Leslie Morgan and I am thr proud daughter of Theodore S. Morgan and the very recently deceased Helen Morgan.

We have had the grave misfortune of having Deb Klock as my parents health care guardian.

I was the Petitioner for both my Parents in Orphans Court in Chester County in the largest financial exploitation case in the State. The decision and order regarding the financial piece was rendered on 3/30/2022. The Order was the same date. The Conditional Guardianship for Protection was June 25,2021. It included my parents getting help at their home.

Deb Klock is a practicing abuser in my opinion. I believe she enjoys torturing her clients in a very planned and deliberate pattern.

Just before my Mothers forced death Deb Klock forcibly removed my Mother from her home and husband of 67 years. I will never ever forgive her or forget this monster.

I can send you our decision and order and other document's but at the end I am better in person and would love to meet you and go over the salient facts of our very active case where Chester County employe, now ex was even involved.

To me the sealed courts of Orphans Court and quietness of the actual clients did to age and infirmity

leads to corruption of the Professionals.

We were able to receive a bench directive against the one lawyer who has an undergraduate degree from Princeton and law degree from University of Chicago all with honors. That was solely due to my and my team's investigation. It is disgusting. My dad was a Marine and very poor orphaned kid who dreamed big and met another person, Helen, with equal home issues and yet they were so humble, grateful and forever appreciative of the life they earned.

I believe my parents and others are literally hunted for the money by this very tight group of lawyers and unlicensed 'guardians'.

Leslie

deb klock

Dear Ms. Copestick,

Please bring this to the attention of Judge Weilheimer. According to Logi, my mother's guardian, Klock is now my mother's care manager. After learning many things about Klock from very reliable people, Klock cannot be allowed or trusted to be in any way involved with my mother. It cannot be believed or accepted that Logie does not know the attached

document information about Klock. Logies judgement on my mother's matters, personal and financial, shows he cannot take proper care of my mother or especially, trusted for her financial matters. For example, for over a month, my mother's legs have been extremely swollen. Logie refuses to have her go to the hospital for tests. He gives no reason. He claims a doctor (Bruder) looked at my mother's legs and claims it is only a simple circulation problem. The doctor claims junk food is causing it. What medical doctor would not want a 96.5 year old person to go to the hospital for a simple test or two, instead of risking leg infections to the point of amputation or a blood clot that could kill my mother? Logie is now claiming I am to blame because I bring my mother some food to eat for our lunch together. My mother, Jane, is now 96.5 and has never had this problem and has not deviated from her normal meals and snacks. But, she is not getting the exercise in the low quality nursing home where Logie has put her. She is in a lock down section where she is not allowed to walk around like my mother always did at her very large home for many years.

The gross mismanagement, medical and financial, of my mother since she was taken from her home has been inhumane by any standards. A new guardian must be appointed and my mother be returned to her large home where the psychologist, Ledakis, said she should be.

Sincerely,
arthur herring III

The address and phone number of her business is 34 E. Germantown Pike #287, Norristown, PA, 19401. Her phone number is 610-631-5689. In the following website, she claims to have an estimated annual earnings of \$70,000.

She is listed as the only employee, but she employees at least two other people that I am aware. She employs her son and an assistant. If she has not been submitting 1090 forms for these people, she must be paying them under the table.

She earns considerably more than \$70,000 a year. She charges my uncle on average \$127 a day to be his guardian.

Copy of the above mailed

She started her guardianship business in 1999 as seen from the first web site. Since her business started, she stated under oath that she has been the guardian of at least 100 people. The following is an excerpt from a trial concerning the guardianship of my uncle, F. Harvey Whitten.

12 Q. Among other things, ma'am, your credentials
13 include court-appointed guardianships for geriatric,
14 disabled and chronically ill clients; is that fair?
15 A. Correct.
16 Q. Approximately how many times have you been
17 appointed as a court-appointed guardian?
18 A. I'd say at least 100.
19 Q. In what counties?
20 A. Bucks, Montgomery, Chester, Delaware and
21 Philadelphia.

Some of the 100 people that she was guardian of have died. However, she was reported to have said that she is currently the guardian of 70 elderly persons. I believe that the 70 people are a combination of being court appointed or just the victims who have fallen into her trap. An example of a victim of her trap can be found at the following web site:

I would not be surprised if the 2 million dollars referred to in this review was also not claimed on any type of income tax forms. Furthermore, I am unaware of the amount of money she inherited in the following probate cases, but given that she lacks ethics they may have exceeded the amount that is supposed to be tax free.

Deborah Klock is both the sole "executrix" and sole "interested party" in SIX cases in the probate court in Montgomery County, PA. She may be listed in probate courts in neighboring counties, but I couldn't find a site on the web to search. However, the following cases can be found at <http://webapp.montcopa.org/PSI3/Viewer/Search.aspx?c=ProbateSearch> by typing in "Klock" as the last name.

In this first case, Hazel Belle Shuman died on March 1st, 2000. Deborah Klock was the sole interested party and her counsel was Robert Slutsky.

Setting aside fleecing other people's estate, let's assume that she is billing around \$127 a day for the 70 people she is rumored to be their guardian. Her annual salary would be \$3,244,850.00. In leap year, she would get a bonus of \$8,890.00, since that is what she would be pulling in for one day.

Please investigate her finances, since I believe there is an extreme amount of fraud surrounding her.

Sincerely,

Cosmas Skaife

P.S. If fraud is found, I suspect attorney Diane Zabowski of 117 West 2nd Avenue, Collegeville, PA, 19426 probably committed tax evasion as well, since they are close.
