

FENSTERMACHER'S LIES

Ronald Fenstermacher, about 55, was my parents trust lawyer and Executor of their Wills for about 20 years. He would also be my trust lawyer when my last parent died. After my father died in 2013, my sister and him became very good friends. My sister, jsh, had hated my/her Mother all of her life. It was never known why. She was very close to our Father. After father died, jsh and Fenstermacher, for some unknown reason decided to try to steal money from my then 88 year old Mother in various ways. One of them would be for jsh to take ownership of my Mother and her vast financial assets. I always told my Mother about those attempts. In mid 2020, I took Fenstermacher's various legal documents to a law firm for evaluation. They found many mistakes. Mother decided to fire Fenstermacher and she did. In May 2021, Fenstermacher told jsh about legal guardianship to get what jsh wanted: total control of my Mother and her assets. Fenstermacher told jsh to go to the law firm down the hall from his office to do it. On May 18, 2 days after my Mother's 96 birthday, I was emailed the petition for guardianship by jsh's lawyer, Camp. Jsh admitted in court, by my questioning, she (jsh) never discussed such a radical move with Mother because she said she did not think it was that important.

For most of the 3 years Mother was owned by the guardians, I was pro se and spent about \$100,000 in lawyer fees and other costs to get Mother back home from the pig pen nursing home she was being kept in solitary confinement, in a locked in section, in a sensory deprived environment, no phone, no visitors allowed, not allowed to go into society or go back home to see her loved possessions of almost 100 years. Mother died on July 2 2024 at 99. The guardianship mafia killed my Mother by morphine. Mother died a very slow, extremely painful, barbaric and inhumane death by starvation and dehydration.

In May 2022, Fenstermacher became the latest guardian of estate to Mother. He admitted in court in early 2023 he had not seen or talked to Mother for 4 years. But he was a lawyer and he was obligated by federal, state laws and rules for the AIP (alleged incapacitated person) and the PA Rules of Conduct for lawyers to do what his client wanted and to always keep his client informed of what was going on in her guardianship. He never did. He also admitted, by my questioning, that he thought his only job was to sign the checks of the mafia. I asked him what about waste and fraud by them and he replied maybe he should look into that. He never did. He gave away and wasted hundreds of thousands of dollars of Mother's money. He admitted he refused to read my emails to him about the waste of Mother's money in various ways and how Mother could be much happier at her home and saving massive amounts of money because he said they were rants and rantings.

He also refused to carry out my Mother's wishes that she wanted me to live in her home, as I had been for 2 years, whether she was there or not and also continue to get my/jsh gift money Mother had given both of us for 8 years. Fenstermacher hated me because Mother fired him and was punishing me by allowing Mother to live in a low rated nursing home with people with mental and behavior problems. Mother was NEVER accused of having those problems.

Table of contents

1. Fenstermacher refused to reply to emails about problems I found affecting Mother as her guardian of estate. He also refused to carry out Mother's wishes of having me to continue to live in her home and continue to give me Mother's yearly gift money to use.
2. I continue to tell him Mother should be at home living as she had been, happy and healthy, before jsh filed her petition of guardianship and the various people stealing from Mother. Fenstermacher sarcastically says that I am the problem and causing massive waste of Mother's money. The waste of her money he was giving to various people hired and Mother was paying for them which were NOT her responsibility.

gift money

Mr. Fenstermacher,

You have not replied to my question: will you approve my request for \$2,000 a month (replacing the \$14,000 a year gift money my Mother has given her children for 10 years) and 90 days to find another place to live when such a hearing is requested?

Also, will you resign, as I asked you previously, as my Mother's guardian of estate since you do not care about my Mother, what she wants and the money that is being wasted by the lawyers and guardians because of them deliberately causing problems, knowing I will try to stop those problems to my Mother and the lawyers using that as an excuse to rack up massive, unneeded billing hours just to enrich themselves?

I have several replacements to replace you who are lawyers. I have talked to them and they are very concerned as to how those people are mistreating my Mother and wasting her money.

I also stated that I do not trust you any more and I want a new person to be my trust lawyer when the time happens.

Arthur,

I see no purpose in such a meeting. You need to face certain facts. Your mother has a Guardian of the Person. That will not change no matter what you do or what you think. Your mother will not be returning to her former home. The Judge has stated that repeatedly, most recently at the meeting of the attorneys earlier this week. By all accounts other than yours, your mother is receiving very good care at Manatawny Manor and is happy there. Your actions are causing any "waste" in guardian and attorneys' fees.

Mr. Fenstermacher,

As you know, Mr. Meitner is quitting. I want to have a in person meeting with you to discuss matters that are extremely urgent pertaining to mother's health, welfare, financial welfare and happiness. I can meet you in your office any day and time. In 6 weeks she will be 98 years old. There is no reason why she has to live in those conditions and have her finances drained and wasted only to make money for her guardian and other lawyers, but not helping my mother in any way.
