

JSH EMAILS AND DOCUMENTS

As with the other emails and documents on this news site proving the barbaric and inhumane “guardianship” of my Mother was only a money grabbing scam by vultures, the following emails and documents pertain to jsh and her involvement in the scam. Jsh was the daughter of my now reborn Mother, Jane Herring. Jsh is also my former sister. These documents and emails, as with the others on this news site, prove the “guardianship” (ownership) of Mother was only a scam from Day 1 and never had anything to do with Mother’s health, welfare and happiness. Those people involved in the scam I called the guardianship mafia, the same type of criminal enterprises of any organized gang of criminals. Those in this mafia included corrupt judges (weilheimer, sterling), corrupt guardians (logie, blumer, ellis), their corrupt lawyers (camp, bill blumer, gelsinger, zabowski, others), Mother’s corrupt lawyer jaskowiak (assigned by weilheimer), corrupt “care manager” klock (known for stealing and over drugging her victims) and Judas: jsh. Those people were also in charge of other people’s loved ones and their tactics, lack of treatment and human decency to their other victims, including the draining of their assets, can only be compared to the worst criminals in prisons today.

The emails and documents may not be in the correct date listing.

1. Jsh’s lawyer camp, never filed the proper petition for guardianship according to federal and state laws, including the PA Rules of Conduct for lawyers and various rules pertaining to guardianship. Weilheimer did not care and jaskowiak did not care. The fix was in at all levels to declare Mother “incapacitated”, make her a prisoner of their’s and own her, dump her off to any nursing home, sell her house for more money for the mafia and drain her assets until she dies. Throughout this scam, I tried many, many times with all involved, to get Mother back home to where she lived for 21 years and her happy life. NOBODY cared about Mother, especially jsh.
2. Why was Mother kidnapped by logie (first guardian of person and estate, friend of jaskowiak and others involved) to start with? To this day, the mafia refuses to answer that question. As logie said in his invoice: it was part of “the plan”.
3. Many times I would bring mother flowers, presents and things to read. In the beginning, weilheimer had a “visit schedule” of only 1 hour, 3x a week. NO reason given for a schedule, instead of normal anytime visits. The fact was visit restrictions (later visit denials) was a punishment to me for exposing the mafia and its purpose of stealing from the elderly. On my next visit with Mother, I would find the things I gave Mother missing and it was jsh who took them. I told camp to tell jsh to stop stealing, but jsh never stopped.
4. Jsh refused to let her Mother go back home to live, no reason given. Especially, since the mafia’s hand picked “whore”, ledakis, said Mother could live at home and with me there everything was fine in his first report before the petition hearing. Judges and lawyers call psychiatrists and psychologists the “whores of the court” because they will say what they are paid to say. After I exposed ledakis and his “evaluation” of Mother as a fraud, after that he always accused me of harming Mother to restrict/deny my visits with her. A common tactic in guardianships called “demonizing” the loved ones of the victims.
5. See #3.
6. How could jsh, who claimed she loved her Mother, deny Mother anything, even a phone to call me and Mother’s friends at Mother’s elder age of 96? For 3 years, Mother was kept in a locked in section, in solitary confinement, in a sensory deprived environment. Mother was never accused of having any mental or behavior problems.

7. Many times I tried to get better guardians, but was always blocked by the mafia. Camp blamed me for the high and constant lawyer fees, but only I kept finding problems that they never saw or cared about and I was fighting them to get them fixed. The lawyers for the guardians were part of the guardians business and Mother had no obligation to pay them at all.
8. The mafia was constantly accusing me of doing things as if they were fact. The basis of US law is a person is innocent until proven guilty in a court of law. But, the mafia and corrupt judges NEVER wanted to do so because they had no evidence and NEVER wanted to ask Mother if their accusations were true. Why? Vic Meitner was my lawyer from January 2022 to December 2022. After that I was pro se.
9. After my father died in 2013, jsh contacted every one My Mother dealt with in business and her doctors and convinced them Mother should be put away. Jsh sent emails to Dr. Kuhar (Mother's primary doctor of 21 years) saying so. Kuhar learned it was jsh who was mentally disturbed. Jsh is a classic case of being a narcissist.
10. Email to jsh from me. I wanted evidence to prove jsh hated her Mother and was part of the mafia to steal Mother's assets until Mother died.
11. Jsh's reply to me showing how much she hated me and always had in her life. Who was the one trying to help Mother get back home and who was the one who filed her petition to own Mother and admitted in court during the 2 day petition hearing that she never talked to Mother before jsh filed her petition because jsh did not think it was that important to do so. WTF?
12. My email to camp reminding her of the extreme high cost of Mother's cage (\$90,000 a year) compared to living at home for only \$16,500 a year.
13. My email to Meitner telling him how I have reached out to jsh to help Mother, but jsh wants to keep mother in the cage.
14. Email to camp pointing out various facts.
15. Email to camp asking who gave the order to kidnap mother from her house on august 25 2021? Everybody in the mafia has refused to answer that question. No surprise.
16. Email I sent to the 2 bosses of camp making sure they knew their lawyer was part of a scam. They never replied.
17. Email to camp reminding her how much money Mother was losing because of jsh. Camp did not care about Mother, only building billing hours for her bank account.
18. To save his friend, jsh, money, guardian of estate fenstermacher would contact jsh directly so she would not have to pay lawyer fees. Fenstermacher had helped jsh many times before the guardianship to try to help jsh to steal money from Mother. I always blocked them.
19. Again I asked camp who ordered the kidnapping of Mother by jsh and logie from Mother's home on august 25 2021. No reply from camp.
20. Camp giving a no reply lawyer BS as her "answer" to #19.
21. In mid 2023, I stopped at fenstermachers office to talk with him. His office is down the hall from camp's law firm. The office manager of the law firm with camp made up a story I was in their office. A total lie. But the police and the building manager never asked me my side of the story. More demonizing of me because I was a threat to the mafia.
22. See #21
23. See #21. I made sure camp's law firm partners knew about the lies on me and the scam camp was involved in on my Mother
24. See # 21. Guilty without a trial.
25. Another reminder to camp about the money jsh and the mafia is wasting on their scam on Mother.
26. Email I sent to camp's office manager about the lie of me being in their office.

27. Email to camp reminding her of the waste of money by the mafia to Mother who may need it later on for medical needs.
28. Email to camp about jsh's actions on Mother.
29. Email to camp about the barbaric treatment and conditions jsh has forced on Mother.
30. Email from camp using traditional lawyer BS of not answering a question
31. My reply to camp. See #30
32. Camp said jsh thinks I should pay for all of the lawyer fees instead of Mother. I tell camp it was jsh who filed the petition to own Mother and her assets.
33. Email to camp asking again why doesn't jsh want Mother to have a nicer place to live and save money
34. Email to camp telling her guardian blumer said there were 41 cases of covid at mother's cage. Stats say about 39% of people that die from covid die in nursing homes. Because of jsh starving Mother in jsh's home after the kidnapping and putting Mother into the hospital confined to bed for 6 weeks and treated for starvation, Mother got covid in the hospital and again at the cage. Jsh did not care how much pain and suffering mother went through
35. Email to camp about jsh's claim she thought Mother's assets were undervalued. I know they were being stolen by the mafia. When was jsh going to wise up she was being used by the mafia?
36. Email to jsh reaching out to her again to try to stop the waste of Mother's money.
37. I emailed jsh again because she never replied to #36.
38. Cease and desist letter to camp and sent to all of the other lawyers for constantly lying about me.
39. Email to camp about current situation with the mafia draining money for "monitors" who must be with Mother and I during visits and paid by Mother and/or me that is costing Mother money.
40. Jsh sent these two birthday cards to Mother as if nothing was going to happen. Jsh filed her petition 2 days after Mother's 96th birthday, but never called her on her birthday. Jsh admitted in court she never discussed what she was going to do to Mother because jsh did not think it was that important. Evil and barbaric.
41. About one year before my father died in 2013, jsh kept bitching to my parents that she needed money, even though she had a full time job as a medical coder out of her home. They loaned her \$100,000 at an extremely low rate of about 1%.
42. About one year after my father died, jsh bitched again to my Mother saying she did not have the money to pay back all of the loan, so Mother sent her trust lawyer and also her guardian of estate in May 2022 fenstermacher, a note forgiving \$25,000 of that massive loan my parents gave my sister. To this day, the \$75,000 has not been paid back.
43. The letter, by my former lawyer, demanding discovery of various items from my sister because she wanted to be guardian of estate to Mother. Jsh refused to do so and dropped out to be guardian of person and estate. I wanted to be guardian of person and so did Mother, but weilheimer claimed I was unfit to be a guardian to Mother. The mafia did not want me to have any power.
44. Several years before jsh filed her petition, she demanded to do Mother's taxes. Mother wanted to use my CPA. Mother wanted mine instead of the one she and my father had used for about 20 years, breon, because breon kept raising his prices. I stopped using breon also years earlier. My sister was not filing Mother's taxes and not picking up tax documents at Mother's house. I discovered jsh was not doing her taxes, but giving them to breon to do as he had been doing. Jsh had been lying to Mother.
45. The day after Mother's 96th birthday, I sent jsh another email telling her Mother's taxes were due and last year jsh was overdue paying them. Jsh refused to answer my emails so I had to tell Mother taxes were not paid which upset Mother. At one point before the petition hearing, I had to give tax documents to jaskowiak to give to jsh.

46. A year before jsh filed her petition, she went to the police department and filed a report claiming I kicked her in the back at my Mother's house, which never happened. She never told me or Mother that she ever went to the police. But, at the petition hearing, jsh claimed I tried to push her down the stairs at Mother's house. What a liar only to get sympathy from others.
47. Jsh would not return Mother's calls pertaining to different matters. It upset Mother that she did not know what jsh was going to do. This included Mother going to the doctor. But, when jsh did go there and I was there also, jsh would always insult and degrade Mother in front of her doctor to the point that sometimes Mother would cry. I had to tell jsh to shut up. Jsh would also condemn the doctor for being late for the appointment because she had other patients. Sometimes jsh would leave before the doctor arrived because jsh thought she had better things to do.
48. Jsh "bragging" she had everything under control with Mother's taxes, but jsh just lies to avoid admitting the truth about her failures in matters. Jsh claimed she had all of those "friends" of Mother's business people, when she had only been telling them lies for years to make herself look like she knew everything to them and had been lying to them about Mother's mental health.
49. Jsh seemed to get pleasure out of causing other people problems. She was acting like a child throwing temper tantrums if people did not kiss her ass and tell her how great she was, as jsh thought she was in her own mind.
50. More proof she had fenstermacher wrapped around her little finger for years after my father died. When he was Mother's guardian of estate for 2 years, fenstermacher was always doing favors for her, but not for me because I had and was exposing him as a crook. Even after Mother was reborn, fenstermacher is refusing to carry out his duties as Executor and my Trust lawyer for me to punish me. During his time as a guardian, I filed a complaint against him with the lawyer disciplinary board to have him disbarred because of his corruption.
51. My email to jsh telling her how she has hurt Mother and insults Mother.
52. Jsh's mentally unstable remarks to me and denying what she does to Mother
53. After my father had a nervous breakdown about 2 months before he was killed by morphine, jsh wrote a letter to the chief of police praising him and the other cop who got my father into an ambulance. Jsh would later use that connection with the chief to have him put 2 cops at the house to hold me while jsh and logie kidnapped Mother.
54. This shows how much jsh, with fenstermacher's help, wanted to own mother and her assets. She and fenstermacher made up this "Delegate Authority" that jsh and I were to sign. I would be in charge of Mothers house and car repairs and her medical needs, BUT jsh would have total control of all of Mother's financial assets to use any way she wanted. Jsh had been trying for years to get me to put mother into a nursing home and sell her house and junk her much loved possessions of 96 years. Jsh never discussed her plan with Mother AND neither did fenstermacher. I refused to go along with this scam which was about 1 year before jsh filed her petition for guardianship.
55. Email jsh sent me telling me, after she and logie kidnapped Mother, that Mother was going to be kept at jsh (like a bird in a cage) and if I went to jsh's house to see Mother, jsh would have me arrested. Who the hell did jsh think she was to kidnap Mother and deny Mother and me to see each other and talk on the phone. While I was being held on Mother's porch by the 2 cops, I heard mother crying and yelling she did not want to go with jsh. After Mother got to jsh's house, she was drugged to keep her quiet. Mother could not call me because jsh only had a cell phone that jsh kept away from Mother. That night, I called the PA state police to do a wellness check. The cop claimed Mother was fine when he only saw her through a window. The next night, I called the police again for another wellness check, but they refused to do so. Mother was 96. She could have had a heart attack from this kidnapping. Two days later, weilheimer

- threatened me with prison if I called for any more wellness checks. There was never any court orders for Mother to be kidnapped and NOBODY has admitted who ordered it. Why didn't Mother's court appointed lawyer, Jaskowiak, stop it and order Mother back home. His job was to protect and defend Mother in this guardianship. Jaskowiak proved he was in the mafia for his financial benefit, not for Mother.
56. After about 10 days after being kidnapped, Logie sent me a email claiming Mother passed out because it was a hot day and had to be taken to the hospital for dehydration. Treatment for dehydration is only over night. I found out Mother was being treated for starvation and confined to bed for 6 weeks. She had to have daily blood tests 42 times. Her arms were black and blue from them. She also had to have daily needles in her stomach (42 times) to prevent blood clots. At week 5, Mother got covid where she could have died. This document proves in early September 2021, there were NO hot days. Jsh refused to let Mother have the every day foods Mother liked so Jsh was starving Mother and did not care.
57. In June of 2023, Camp filed a reply saying Jsh thought I should have monitors every time I visited Mother and either Mother or I had to pay for it. Never did anyone in the mafia ever file a petition to prove their claim that I upset Mother when I visited Mother. Again, the mafia hired their quack ledakis to claim I should be watched. In the US, a person is innocent until proven guilty in a court of law. The mafia thought their accusations were good enough for guilt.
58. Another email sent by me the day after Mother's 96th birthday telling Jsh Mother's taxes were due. Jsh did not care as she knew in a few days Jsh's petition would be filed and sent to Mother and me. Jsh's plan to own Mother was going to start.
59. About 5 years before she filed her petition, Jsh was trying to get me to junk all of the possessions of Mother's in the basement. She never asked Mother if Mother wanted anything she owned of 95 years to be thrown out. I refused to do what Jsh wanted. I also say how much I was going to help Mother to make her happy after father had died in 2013.
60. Jsh's email to me telling me everything Mother eats is bad for her. Mother was about 91 at that time and was perfectly healthy. Again, Jsh never talked to Mother about her diet and Mother's doctor of then 15 years had no problems with Mother's health.
61. About 2 years before she filed her petition, Jsh threatened to sue me claiming I was hiding Mother's checkbook and using it for myself, which was a total lie.
62. Jsh was trying many times to get people on her side for what she had been planning for Mother. I refused to be one of those people who would be cheating Mother and making her do what she did not want to do" sell her house and go into a nursing home.
63. After my Mother died, I remembered Mother told me many times when she was in my sister's car, Jsh would give Mother documents and demand Mother sign them. But, Jsh refused to give Mother copies of them. I kept telling Mother not to sign anything until I looked at them. Fenstermacher claimed he did not know anything about those documents.

your client

Ms. Camp,

I want to confirm what we talked about last week:

Your client does not want to meet with me and you to try to work things out to drop Logie and get

another guardian.

She does not want any increase of hours to visit her mother which would also affect me getting more

hours to visit my mother.

Does not want me to be there if she isn't on her visiting days.

Does not want her mother to go back home to live.

Does not want her mother to have a phone in her room.

Note my new email address. Do not use the old one.

RE: your client

Mr. Herring,

I did respond to you but it appears you deleted that email address.

Your prior statements that my client does not want to use most of her visit days is inaccurate. I have never stated that to you, and I know she has not either. Your sister is entitled to her scheduled visitation days. We will not agree to allow you to use her days.

I will confirm that we do not agree that it is in your mother's best interests for her to move home at this point in time, or that Mr. Logie should be replaced as guardian. And it is correct that, at present, we do not believe it is necessary for your mother to have a phone in her room.

client behavior

Ms. Camp,

Kindly inform your client, ms. Herring, to stop her very childish and immature behavior and actions of taking food from my mother's jail cell and the pictures I have given my mother. What I give to my mother is for my mother's use and enjoyment, especially the food that we both eat.

explain your client

Ms. Camp,

I am aware you answered the questions, but you did not explain WHY your client is refusing to do those various items that are for the benefit and happiness of her mother. There is a big difference.

Doesn't a person, who claims she is a so-called loving daughter, want her 96.5 year old mother to be happy and be in a place that has been her free, large, beautiful home for 21 years and have a phone to use, instead of a run down, tiny one room pig pen with dead rodents in her room and covid where she is?

Would you want YOUR mother to live there till she dies?

Ms. Camp,

As I have informed you before, your client has removed (stolen) food, pictures and other items I have given my mother. Today, at my visit, I saw that the 2 large vases I bought my mother many weeks ago for the roses I buy her are gone.

How very petty and juvenile for a 71 year old woman to do such a thing.

RE: vases

Ms. Camp,

Derogatory? What part of those incredible and bizzare lies about me by your client during the trial did you think were NOT derogatory? I guess it was Santa's Elves that took the vases and other items to give to other people. As long as food, pictures and other items that I give my mother are suddenly missing when I am there the day AFTER your client was there, I will accuse your client based on, in my opinion, her psychologically unbalanced hatred of me that she exposed in length during the trial.

Also, you never explained WHY your client does NOT want a telephone in my mother's room, does NOT want a increase in visiting days and hours, does NOT want my mother to come back home as the so-called court "expert"said she could and does NOT want logie replaced. According to your client's testimony, she loves (?) her mother.

Subject: RE: Guardian of Person for Jane Herring

I am familiar with Carol Hershey and Guardian Services of PA. In fact, in the very beginning of this matter when the petition was filed, I contacted a number of agencies, including Guardian Services of PA, and they would not agree to serve due to your client's behavior and historical conduct. I'll note that this was before your client created his website so it is very surprising to me that they would now be willing to serve.

I will confer with my client about Guardian Services of PA, but I would want to speak with Carol or her partner, Sue Brown, as they are the decision-makers over at Guardian Services, and I am not sure how they are currently staffing and handling their guardianship matters.

With respect to the guardian and legal fees, I agree that they are higher than usual, but that is exclusively related to your client's enormously problematic behavior throughout this process, which required an inordinate amount of additional time to be spent to protect Jane's interests, both financially and personally. I know you were not involved in the prior proceedings, but it is worth noting that your client was reminded several times (by the Judge, his prior counsel, etc.) regarding how his actions and various decisions along the way have caused additional expense to be incurred by all those involved and how that ultimately impacted his mother's estate. To the extent your client wishes for another level of care assessment to be performed by the new guardian of the person, he will simply be duplicating fees so that is something to bear in mind.

Your client's continued refusal to vacate the home, where he has been living rent free for a significant period of time, only increases the expenses incurred by Mrs. Herring and prevents that non-income producing asset from being sold and invested for Mrs. Herring's benefit. If your client is truly worried about his mother's financial situation and dissipation of her estate, he should be paying back rent and/or vacate the home. I encourage you to speak with your client about this so we can avoid to avoid further court involvement on this particular issue.

All that being said, we also would very much like to avoid a trial or hearing on the outstanding issues. If you think a joint call with David Jaskowiak would be helpful to get all counsel on the same page, to the extent that is possible, I would be happy to arrange a call.

Let me know and I will report back on the Carol Hershey proposal once I have had a chance to speak with my client.

Thanks,

Brittany

Subject: Jane Herring - Arthur Herring Disruption and Visit Interference

Vic,

It has come to my attention that your client is deliberately interfering with my client's ability to visit with her mother during her scheduled visitation times pursuant to the October 7, 2021 Court Decree. He has been calling Jane right before and or during Jill's scheduled visits insisting to speak with his mother, even though he knows Jill is there visiting with Jane during her allotted time.

Please direct your client to stop interfering with Jill's visits immediately.

Further, your client continues to tell Jane that he is taking her home causing her to skip meals and other activities at the facility because she is waiting for him to pick her up, pack her things, etc. He also continues to tell Jane that "everyone is against him" and words of similar import. All of this is incredibly distressing to Jane and disruptive to her daily schedule and ability to more fully acclimate to her new surroundings. **Please ask your client to stop intentionally misleading his mother with constant discussions of bringing her home.**

Your client's actions violate the spirit, if not the mandates, of the October 7, 2021 Decree, and while we would prefer to avoid the expense of involving the court and engaging in further pleading practice, we will be forced to do so if he does not stop. Please direct your client accordingly.

Good Morning,

I just returned from a 2-day trip w/Mom to Cape May. As background, this is the 7th yr 16th short trip I have taken her since Dad passed.

I plan to attend the next June mtg with Mom and Dr Kuhar and have reviewed the CT head & blood work since speaking with your office several times recently regarding Mom's serious decline.

>> Mom has no focus, concentration, sense of time, memory orientation etc. She enters into "fogs" where her eyes & mind are "some place else". Never before I have ever heard her say delusional things eg she told a long story that she attended MY school (Stevens School Chestnut Hill) while married to Dad!! & when I reminded her she went to Germantown High School - she asked me "Didnt I go to Stevens?"

I do not think that she can handle her checkbook any more I will email Morgan Stanley advisors Matt Fisher & Matt Pruitt to flag accounts for compliance as there have been in last few months countless issues with federal local taxes & her inability to work/cooperate w CPAs, financial advisors & me especially (I had 30yr career as EVP in Merrill Lynch Global Hdqters) who try to help her.

Mom can for now function in her surroundings at home ie make very simple meals & very basic routine things.

Thank you again for your understanding and care of Mom.

Dear Dr. Kuhar,

Mom is noticeably improved on donepezil. She had increasing over the past 1yr+ extreme changes in her emotional & personality states - horrible attacks on my late Dad, family and me. She came to church once in pajamas & slippers - now she is aware of how she is dressed.

In general, there is an equilibrium in her personality.

Memory (often minute to minute), confusion, and incompetency continue - but now she is more honest about it.

Thank you.

Dear Dr. Kuhar,

I will be bringing Mom today at 12:30p. Donepezil is maintaining her emotional equilibrium a little better - she cannot remember from a minute ago (eg she will call me 4-5 times to ask me the same question and not remember calling me before). She is also waking up daily she says at 4:00p & does unnecessary things that dont make any sense eg taking "papers" from one place to another creating chaos all the time.

My question is can the donepezil be increased?

Thank you.

Jill Herring

P.S. As you know I work full time for Main Line Health & hours at this time of year prevent me from staying very long for her visit - it would help to schedule later in the day ~ 3:30/4.

Mom is generally about same with improved equilibrium but I have noticed bit more lucidity & focus. Memory, comprehension, competence about the same.
I am worried about hydration as she does not like to drink water - She will go a whole day without water & just ~2oz of milk.

Thank you and I wish you happy holidays!

Dear Dr Kuhar,

Past couple of weeks Mom experienced a couple crying jags where she says "she has bad days & doesnt know whats wrong with me".

She literally cannot keep a thought in her mind!!! And we cannot "trust"/rely on anything she says. I dont want to use the word "delusional" but she thinks different things happened & will "swear to it" but they didnt. In other words, if I ask her if she is taking her medicine, I cannot trust that she does even though she will say she did.

I just cleaned out pantry & refrigerator with food dating to 1998 & refrigerator packed with rotten food. I take out bags of trash etc - she doesnt even notice. I am taking the "heat" cleaning out her home but someone has to do it. She couldnt remember where she lived the other day.

I think it may be time for a home nurse to visit her several times a week. Artie has never had a job & doesnt now have a stove or refrigerator at his place so he eats at Mom's - but I prefer a professional from Grandview Home Nursing unit. I defer to anything you advise.

Dear Dr. Kuhar,

I was speaking to Mom ~2:30p yesterday 2/24 - conversation turned to Dad's Merchant Marine lifelong work from 1945 meeting Pres Truman thru life to see legislative approval for WWII MM benes.

(FYI When I moved back to Philly ~2009 to return to college for Med Coding Career - also working 2 jobs before permanent coding employment - I volunteered w/MM Assoc DC to lobby Congress & Worked w Rep Dent for MM Ceremony for east PA)

- so in this part of the telephone call Mom said to me "DID I KNOW YOU THEN?"

I reminded her I was her daughter - She Said "OH" & small giggle.

Dr. Kuhar, this is 1st time of this nature in her condition. Then at end of conversation - she said very formally

"WELL I GUESS WE'VE CAUGHT UP AFTER A WHILE" (I speak to her 1-2x day) Then We said Goodbye.

Thank you.

mother

Jill,

It's about time you realize how much money the gang has been stealing from mother and you. I have known since the beginning. Remember, 50% of the money they are stealing in lawyer fees, guardian fees and where she lives now would have been yours when mother dies. Do you hate me more than losing that much money every month?

Manatawny Manor costs about \$90,000 a year starting back in October 2021 (\$112,500 to date) and I am guessing the various lawyer fees and guardian fees are well over \$150,000 so far. Those lawyer fees are going higher and higher every month because I will not allow for mother to live worse than a animal in a cage. Do you want to keep losing that much money?

I do not care at all how much you have hated me for decades and still hate me now, but to hate your mother, after all that she has done for you and given you all of your life, especially after Dad died, is despicable. I cannot believe how you kidnapped mother from her house, within a day she was on anti-depressants, kept mother in isolation at your house for two weeks, mistreated and starved mother to such an extent at your house that she had to be taken to hospital by ambulance, kept there for 6 weeks, she got covid where she could have died, had daily blood tests to where her arms were black and blue and she had daily needles in her stomach to prevent blood clots. Then logie dumped her in a disease infested pig pen where she got covid again and later influenza. To have your mother going through such agony is inhumane, especially since she was 96. Even now and for the past 15 months at the pig pen, mother has been denied all of her doctor's visits, especially for her very swollen legs and now even a much more swollen left leg. Mother has been kept in isolation, in solitary confinement, in a sensory deprived enviroment, no phone, forced to stay in a locked down mental ward with people with mental and behavior problems. Is that what you want for your mother until she dies: alone in a tiny room, denied being in the outside world, at home with her cherished possessions and no phone to call anyone? It seems so.

The fact you and Fenstermacher made up that delegate authority agreement several years ago in hope of taking control of mother's money, house and other assets without even discussing it with her was nothing less than attempted theft by deception. How could you even think of doing something as drastic like that without you even thinking mother

should decide what she wanted? As you recall, I refused to go along with you and Fenstermacher's scam. I also have no doubt that if you had ever got such an agreement, you would have also enjoyed having me evicted, despite mother's wishes of me living at her house, along with her, until her death. I have a letter from mother several years ago that said I could. I also have no doubt you wanted to carry out that type of plan, after Dad died, which was to sell the house, junk mother's loved possessions and put her into a nursing home until she died and then wait for the big "check". Many times you tried to get me to go along with that plan, but I have always refused. You admitted in court, to my question, you never discussed your guardianship takeover of mother before you did it because you did not think it was that important. How could you think something that drastic, for her life, was not important?

The lies you made up about mother and told to all of her doctor's and business people to get them on your side is inexcusable for a daughter to do to her 97 year old mother. The lies you made up about me to the police claiming I was a violent person, you stating to the police I kicked you in the back, but a year later changing your story in court to claim I tried to push you down the steps and also claiming various people said bad things about me, is not what a rational person says or does.

As you recall, November 2021, I sent Camp a email saying for you and me to get mother home, fire logie, get a phone in her room until she does go home, get more visit time and days. She said you did not want any of those things for mother. Two months ago, I found two places that were much, much nicer for mother and would save mother about \$60,000 a year compared to the pig pen she is in now. Blumer, Fenstermacher, Jaskowiak and Camp said no. It is YOUR money they are wasting, not theirs.

There are certain corrupt judges, corrupt lawyers, corrupt guardians and corrupt psychologists that work as a gang to steal money from people who have a lot of money, a house and who have memory problems. Guardianship corruption is nationwide and Montgomery County orphans court and its judges have been documented as being corrupt for many, many years. For about 15 months, I have a massive website exposing guardianship corruption nationwide. It is www.protectmyparents.us For several months, I am on a 90 minute, nationwide, weekly radio show that deals only with guardianship corruption. That is why I went to prison twice because I was exposing that corruption in mother's case. As you also know, I went to the DA's office and told them about it two months ago, but they shut it down after only three weeks without contacting the other people who went through this type of corruption in the court.

It's time to act as an adult. Let's forget the hate you have for me and mother. Let's think about the money you are losing the way things are now with corrupt lawyers and corrupt guardians. If we work together, we can get mother home where she will be happy and safe. I will live there and pay the 50% of the court noted cost of house operations of

\$16,500 a year, I pay 50% of the food costs, since mother's car was sold by logie too cheap it will be my car and gas to take mother to various places. Mother will get her much needed doctor's visits and we can decide how you want to visit mother. No matter how much you hate mother and me, YOU are the one that keeps losing all of that money that you love so much. Remember, \$90,000 for a tiny room is a lot of money to lose every year, especially since mother still does not need any daily services. She can live at home for basically free. Since Fenstermacher is in charge of her estate and mother's car is sold, there is nothing I can get or have changed.

Finally, you pride your self on being very religious for 15 years. Remember the Ten Commandments: Thou shall honor thy mother and father, thou shall not steal and thou shall not bear false witness against thy neighbor. After how you lied about me in court, lied about mother to others and did what you have done to mother, at your age of 72, do you really think you deserve to be allowed into heaven? Will they think so?

Ms. Camp,

Did your client bring this email to your attention? Ever since my mother was forcibly removed from her house on August 25 2021, against her will and for monetary gain, it is extremely sad that your client does not want the best for her mother. This refers to mother's happiness, her physical and mental health, saving hundreds of thousands of dollars from being wasted on a very low rated, disease infested nursing home where mother has been kept in solitary confinement and in a sensory deprived cage for 15 months. Mother does not even have a phone to call her friends or for help if she needs it. The staff is almost never at their desk to hear the phone. Your client must keep in mind that 50% of all of the money wasted at the nursing home at \$90,000 a year and all of those lawyer and guardian fees would have been your client's if your client agreed to to have mother living at home. Details can easily be worked out. Mother still does not need any daily services to be on her own.

Is this where and how your client thinks her mother should live until mother dies after how much mother has loved her and given to your client all of your client's life, especially after our father died in 2013?

Re: Email to Fenstermacher

Mr. Meitner,

It is evidence against them, including my recent email to my sister. It proves I have reached out to her to help mother several times and to save money for her, but she would rather have my mother, who gave her money every year, a car and forgiving \$25,000 of that \$100,000 loan for her house 15 years ago.

Do you realize ALL of the problems I found (for free), those vultures did not, including jaskowiak? Mother needs me to take care of her and for her happiness, not them, who are letting her die slowly. They want the big prize (house) now while she is still alive. How much more obvious can that be?

: mother

Ms. Camp,

As you know, Meitner has quit as my lawyer, with no notice given. As you are aware of my non-existent finances, I cannot afford any more lawyers so I will be pro se.

My sister probably sent you my email below a month ago. As you can tell by her very bizarre response, she clearly does not seem to be mentally well. Her condition has been exposed at many times and in many ways. Her lack of clear mental judgement should have been obvious in her petition and during her court testimony. Her lack of mental normality is clouding her judgement in this matter and has and is still causing great distress to my mother: mentally, physically, psychologically and especially financially.

I spelled it out, to her below, that no matter how much in her mind she hates me, the welfare and happiness of my mother is most important until my mother is diseased. I just cannot say "our" mother since my sister has never cared for her biological mother by her various actions and treatment of my mother for decades, despite how much my mother loved her and especially has given her much, much money and other assets for 10 years since my father died.

It was only because I was pro se that this farce, called a petition, was ever granted.. Then, add to that the ongoing scam that has been documented for decades of guardianship corruption in the orphans court on seniors with memory issues involving corrupt judges, corrupt lawyers, corrupt psychologists and corrupt guardians. When this guardianship corruption began on my mother, I created a massive news website called www.protectmyparents.us The orphans court snags those people, who have a lot of assets and a house, declares them "incapacitated" just to dump them into low rated nursing homes and drain their assets by hiring as many unneeded people as possible. This scam has been heavily documented nationwide for decades.

I am sure you have seen the massive invoices by mother's guardians, lawyers and others since the scam on mother started. None of mother's money needed to be wasted. You should have explained in detail to your client that every dollar wasted by them, when mother dies, your client would have received 50% of that. Since mother still does not need any daily services, wasting \$90,000 a year at that pig pen and all of those lawyers and guardians fees does not make any sense when mother could be living at home for only about (as is in the record) about \$16,500 a year. Since fenstermacher is guardian of estate and is a very close friend of my sister and he controls all of the money. I cannot benefit financially in any way. As a matter of fact, since logie sold her car, it will be my car, gas, insurance, repairs and time to take mother to her needed appointments, especially her doctors. I WILL GLADLY DO IT! I will even pay half of those operating costs each year just to get mother home where she will be again both physically and mentally active. She is NOT getting any of those benefits at the pig pen. As a matter of fact, the place is constantly being infected and shut down for various diseases. Mother was infected with influenza there and a second time with covid. How can your client claim she loves her mother in court and in the petition, but does not care about wasting mother's money and shoving mother in front of diseases that will kill mother. That makes no sense at all. Is this the same person who wanted to take control of all of mother's money (about \$1.8 million), house (about \$400,000) and her life until mother died when she filed her petition? Really?

Your client and I can work any issues out. I told you that very early last year when I did not have a lawyer then and that the 3 of us can meet or just you and me at your office to work things out.. It is your responsibility, as her lawyer, to tell her that she is doing herself grave harm financially by wasting her share of her inheritance (including mine) just because she has a unnatural hate of me. I know too many people whose loved ones lost everything to those corrupt guardians and their lawyers. You must tell your client that there is NO, repeat NO guarantee that there will be any money left after those people waste it all. My lawyer has told me several times we never signed any agreement that blumer or logie could hire as many people as they wanted and my mother would pay for them. Since now I am pro se, much more money will be wasted by all of those lawyers and guardians in future legal matters. Why?

I am well aware lawyers make their income with billing hours and impress their bosses by having many billing hours. But, how would you feel as a person and a mother if mother should die from a disease at the pig pen and/or mother becomes basically brain dead because she is kept there in solitary confinement in a sensory deprived environment because of where and how she is forced to live? What you may not know is because I have no money anymore because of massive lawyer fees, I cannot see my mother anymore because in order to see my mother, I was ordered to pay for brandi, a monitor who we (meitner and I) were not allowed to know anything about and her qualifications to make notes and

quotes accurately. Blumer claimed the "staff" made various claims about me (never proven in any way) and never brought any of those people into court. As you know, that is called here say, but weilheimer accepted those made up claims as fact by the "staff" at the pig pen. Have you ever been at the pig pen? Why don't you come to mother's house and see how beautiful and large it is and how she used to be living?

Wasn't this entire guardianship matter supposed to help and benefit mother? How has it done so up to now? How is mother better off today mentally, medically, physically, financially and her happiness than before the petition was filed. So far, none of the lawyers or guardians have responded to that question.

How do people think mother will be happier by never seeing her much loved son again until she is dead in a coffin because he was not able to PAY ransom money to see her? But, most important because some unknown person simply needed a parttime job and a paycheck? Really?

Camp,

I was wondering, whose idea was it to take my Mother away from her house, with logie, on August 25 2021? Was it logie or someone else? If it was someone else, who was it?

brittany camp

Dear Sirs,

I wanted both of you to be aware of the fact that one of your lawyers, brittany camp, for almost two years, had decided not to practice law as it was intended, that is to follow ethics and morals in a case as she swore she would do under the law and by her oath to be a lawyer. Instead, Ms. camp decided to only be concerned with racking up wasteful billing hours for her own monetary benefit and to allow extreme barbaric, inhumane treatment and conditions to continue on my 98 year old Mother (Jane Herring) for almost two years. Such misuse and gross abuse of the law is not only unprofessional, but is inexcusable. This scam on my Mother was started because of a fake guardianship started by my Mother's daughter (my 72 year old sister) only to get control of my Mother's expensive house and money that my sister had tried to do several times since my father died 10 years ago, but I always stopped those attempts.

This entire guardianship is only a scam by a certain group of corrupt lawyers, corrupt guardians, corrupt judges, and corrupt psychologists who use fake guardianships to take control of people, their assets and their homes as their private bank accounts. Guardianship corruption is nationwide and worldwide. The playbook used, by those involved in it, is the same nationwide. There has been a major site on Facebook for almost 20 years called Shenanigans in the Montgomery County Court about guardianship corruption and there is a weekly radio show that is coast to coast about guardianship corruption that has been on for about 10 years. For about 5 months, I have been a regular co-host. For about two years, I have a massive news website about guardianship corruption at www.protectmyparents.us

By Ms. camp to continue to allow such a disgraceful use of the legal system and forcing my Mother to live out her life in such horrible conditions, where there are laws that forbid such treatment to a dog, people in prison for major crimes and even POW's, is what gives the lawyers a black eye. Ms. Camp is allowing my Mother's funds to be depleted by the low rated nursing home she has been in for almost 2 years and the many lawyers (vultures) feeding on my Mother with their wasteful and unneeded billing hours. All of them together are forcing my mother to live in basically solitary confinement, in a sensory deprived environment for over 1.5 years. The fact is, the so-called "evaluation" that is claimed to have been done by a psychologist (who I exposed in court) on my Mother, even said my Mother could still live at home and since I also had been living there (at my Mother's request) he said everything was fine. The psychologist stated my Mother had no problems (still doesn't) with daily activities of dressing, undressing, toilet, brushing teeth, hygiene, etc. Mother was still driving her car (no tickets or accidents for 70 years) and neither my sister or Mother's primary doctor of 21 years ever said Mother should stop driving. Mother's only issue was a little forgetfulness and instant recall, which did not require a guardian. Mother's court assigned lawyer (Jaskowiak) refused to bring Mother in to speak for herself (still refuses) and refused to bring in any of the people she dealt with during the year who would have proven Mother did not need any guardian. A lawyer's job is to protect and defend his client. Jaskowiak wanted my Mother to be guardianized so the racket could start to steal from my Mother. Because I used up most of my money on my first lawyer, I had to be present in the petition hearing. But, I did expose the so-called "evaluation" as a fraud and Ms. Camp heard it.

If you read my 13 page narrative, you will see what has been happening in this fraud. My only desire is to get my mother home before Mother's guardian of estate, Fenstermacher, sells her house and trashes all of Mother's loved possessions forever. Mother can easily live at home and enjoy the life she and I had before my sister did this horrible nightmare on my Mother, who was 98 last week.

sincerely

losing money

camp,

I understand that your client wants to sue me for the money that is being wasted by the shisters and guardians only because of your client's greed. Great! Can't wait for it.

Does your client forget that SHE started the scam on my Mother in May 2021 that began putting my Mother through hell to this day? Your client's gross and reckless actions have caused the theft of Mother's money, loss of many of Mother's happy years, causing the gradual loss of Mother's abilities, your client never discussed the petition with Mother or me for such a life changing decision, she never gave one example in the petition or court of anything Mother did to have your client or a stranger take control of Mother and her assets, the court appointed shister for my Mother violated the rules of ethics and professional conduct by refusing to defend my Mother in court by not bringing in any of the people my Mother dealt with to prove she did not need any guardianship and in fact he wanted Mother to be guardianized so the stealing could begin, your client then kidnapped my Mother and put her through hell for two weeks at your clients house of horrors. Because of your client, my Mother had to go to the hospital, unconcious, by ambulance, confined to bed for 6 weeks, treated for starvation, 42 blood tests, 42 needles in the stomach, got covid and then was dumped into her current pig pen, got covid again, later influenza and has been kept in solitary confinement, in a sensory deprived enviroment at \$90,000 a year for almost 2 years. Does your client still consider herself to be a loving and caring daughter to her 98 year old Mother?

At Mother's home, it was only costing my Mother about \$16,500 a year and NO shister and NO guardian fees. In addition, if Mother was not allowed to come home, I had found for the past year many much bigger, much nicer and much cheaper places for my Mother to live. You and her always refused those places. Why does your client hate her Mother so much that she wants to leave her in that pig pen to rot and Mother not allowed outside to see society and go back home to see her loved possessions and be happy? Is your client mentally normal for such hate of her own Mother and me?

I told you months ago that it is your client that is wasting not only her future money, but also mine. That will not be accepted. I told you to you, my sister and myself meet and settle this problem, but the both of you declined. What can only be described by most

people as a person needing serious mental help, your client's actions, based on your advice, just for more billing hours for you, will get your client sued and criminally prosecuted for being a part of this racket. This same racket has done this scam of fake guardianships to people now and in the past to many people for decades involving millions of dollars. As you and your client know, I went to the DA and the FBI last year who are still talking to other victims of this scam.

Somebody should remind your client and you the facts of the real world that harmful and destructive actions to others have consequences.

RE: losing money

Mr. Herring,

I acknowledge receipt of your email. As the Court has told you multiple times over the last several weeks, if you would like some sort of action taken with respect to your mother's guardian or living arrangements then you should file a motion with the Court. Your attempt to relitigate every aspect of this matter via incessant email correspondence is not productive and will not result in any change with respect to your mother's guardianship arrangement.

I am not otherwise substantively responding to the various issues you raise in your email. Do not interpret the lack of substantive response to in any way indicate that I agree with anything that you have said in your email.

Finally, there is no legitimate basis for you to communicate with any other lawyers in my office other than myself as counsel of record for your sister in your mother's guardianship matter. I know you were previously advised of this with respect to other lawyers involved in this matter when you similarly emailed and called their colleagues and so you are fully aware of the inappropriateness of your recent communications to other members of my firm. Please do not contact any other lawyers at my firm; any further correspondence you wish to send to my firm should be sent directly to me as counsel of record.

Defiant Trespassing

Mr. Arthur Herring,

My name is Officer James Geddes from the West Conshohocken Police Department. We recently were dispatched to 1001 Conshohocken State Road, 100 Building of the Four Falls Center, in regards to meet a complainant about a client's sibling. The law firm has identified you as the brother who came into the building and placed business cards in the bathroom stalls on the 2nd and 3rd floor that read "Stop Legal Guardianship Corruption". You have been in communication with this law firm as well in regards to your mother's guardianship. I am not reaching out to you about that since that is a civil matter being worked out in the courts. I am reaching out to you, on behalf of Four Falls Center, that since you are not a client and your actions have been interpreted as attempting to intimidate the law firm, you are not welcome back to the property. If you come back to the property, you will be arrested for Defiant Trespass as you are being notified through this email. I also left a voicemail on your phone (215-960-4447), today, June 21, at 12:29 PM advising you of this as well.

If you have any questions/concerns about this matter, feel free to reach out to me.

stupidity of shisters and COO

camp,

Give my email to paisley. You may have to read it to her because she may not be able to read as it appears she may lack the intelligence to do so.

paisley,

In regards to your attached letter to officer Geddes pertaining to your little hissy fit yesterday about me and my business visit in the building, there is a old rule: Engage brain before opening mouth. You failed to obey that rule. You should start to learn about the Constitution. It clearly says a person has the right of free speech, free expression and free press. I was there yesterday for business. My trust lawyer of 20 years, fenstermacher, has his office on the same floor as your law firm and he has also been my Mother's trust lawyer for 20 years and her guardian of estate for a year. I had problems with him and I went there to see him. For 2 years, because of guardianship corruption on my Mother by a greedy daughter, including the shister for the daughter, camp, I created a massive NEWS website called www.protectmyparents.us. Before I went to see fenstermacher, Before I went to see fenstermacher, I put some of my business cards in several of the bathrooms to help people protect themselves from guardianship corruption and for law firms to protect their clients from such corruption. No crime leaving business cards. I did not find out until yesterday afternoon that fenstermacher had moved.

AT NO TIME WAS I EVER IN YOUR OFFICE PAISLEY. YOU LIED TO GEDDES WHEN YOU SAID I WAS. As per "banning" me from your "kingdom" (building), if you think you are the

queen there and you have that right to ban me, you don't. There are many other law firms in that building and I have every right to see them if I want to.

As you see, a few of your partners and geddes will also see this email and learn how stupid shisters can be. Any more lies of accusations, I will seek legal action. More billing hours for shisters? I have pity (almost) on shisters that only care about money, no matter who has it and how it is stolen, instead of the welfare and happiness of a 98 year old Mother, kidnapped by a daughter, forced to live in solitary confinement, in a sensory deprived enviroment, in a low rated nursing home for 2 years so far, has not been allowed outside for about 2 years, no phone allowed in her room, no visitors or ministers allowed, no access to reading materials, Mother's only exercise is walking 35 feet from her room to the TV room to eat and then back to her room, forced to pay \$90,000 a year. That punishment just because Mother had a little forgetfulness? Even the psychologist who did his so called "evaluation" said Mother could live at home with me there everything was fine for Mother. Mother was living in a huge, 3 bedroom, 3 bathroom, \$400,000 house, in a private gated community for 21 years. Mother was still driving her car until her license expired 2 days before the daughter filed the petition papers. Not one example was cited by anyone, including daughter, that showed Mother needed a guardian of person and estate. Daughter admitted in court she never discussed such a life changing action with Mother. Why? Camp certainly did not care. Daughter only wanted to be the guardian of person and estate to have total control of Mother's vast assets. I was pro se because I did not have any money for a lawyer. After the corrupt judge claimed Mother was "incapacitated", several weeks later, the daughter kidnpped Mother and the new court assigned/jaskowiak pushed guardian of person and estate, logie, from her house without any court order. Daughter held Mother hostage in her home, put her own Mother through such torture and torment that only after 2 weeks, Mother had to be taken to the hospital, unconcious, by ambulance, confined to bed for 6 weeks, treated for starvation, daily blood tests (42 times), daily needles to the stomach (42 times) and at week 5 got covid where she could have died, then dumped at Mother's current pig pen that had just opened up after a major covid shut down. A few months later, mother got covid again and later influenza. Despite me trying to get Mother back home to live happy and healthy (like she had been) and also trying to find Mother a much nicer, much bigger and much cheaper place to live, daughter and the others have refused. Why? Mother's own court assigned lawyer, jaskowiak, never brought in anyone, who mother dealt with, to say mother did not need a guardian. Why? A lawyer's job is to protect and defend their client. That is what a lawyer is supposed to do for their client by lawyer ethics and rules. Jaskowiak and the judge refused to let my Mother come to court to defend herself. Why? Because jaskowiak and the others in the racket in Orphans Court in Norristown wanted Mother and other victims to be guardianized just to get their assets and homes for money. Go to Facebook: Shenanigans in the Montgomery County Court.

Guardianship corruption like this has been going on nationwide for decades by corrupt judges, corrupt guardians, corrupt psychologists and corrupt lawyers. This time by the greedy daughter who only wants Mother's money ASAP. Plus, the shister who represents her for her required billing hours and helps to keep the scam on Mother going.

What a disgusting scam, by sadist criminals, on helpless senior citizens who only have a little forgetfulness. Why do shisters use yellow pads? Do they forget? Then, steal from them and put them into disgusting nursing homes for life and treat them less than animals in a cage. My Mother is NOT a animal in a cage.

mother's money

camp,

I have said it before to you, but you should remind your client again that unless your client is getting money from the guardians and sisters under the table, my Mother's assets are being drastically drained by the other sisters and guardians. Wasting \$90,000 a year on that tiny pig pen mother has been in for 2 years, in solitary confinement, in a sensory deprived environment, instead of being at home at the court established cost of only \$16,500 a year or even a much nicer, much bigger and much cheaper places that I have found, is far better for Mother and saving mother a lot of money for later use by Mother if she ever needs it. But, all of the others, including your client have refused. Stupid. None of those others will be getting anything from Mother's estate, unlike your client.

How can your client claim she loved her mother in court, when she and logie kidnapped mother as part of their "plan" to get mother out of the house, evict me, loot the house, sell the house and keep most of the money? Then your client puts mother through such torture and torment that Mother had to be put on anti-depressants, after only 2 days a eyewitness said she was shaking and crying saying "I want to go home, I want to go home", refused to let mother leave or call me or see me, then after 2 weeks at the daughter's house of horrors, mother had to be taken to the hospital, by ambulance, unconscious, confined to bed for 6 weeks, treated for starvation, had to get 42 blood tests and needles in the stomach 42 times to prevent blood clots, then got covid where Mother could have died. Now, for almost two years, your client has refused to let my mother even go outside or go home to see her loved possessions?

Wow!.

Daughter held Mother hostage in her home, put her own Mother through such torture and torment that only after 2 weeks, Mother had to be taken to the hospital, unconcious, by ambulance, confined to bed for 6 weeks, treated for starvation, daily blood tests (42 times), daily needles to the stomach (42 times) and at week 5 got covid where she could have died, then dumped at Mother's current pig pen that had just opened up

after a major covid shut down. A few months later, mother got covid again and later influenza. Despite me trying to get Mother back home to live happy and healthy (like she had been) and also trying to find Mother a much nicer, much bigger and much cheaper place to live, daughter and the others have refused. Why? Mother's own court assigned lawyer, jaskowiak, never brought in anyone, who mother dealt with, to say mother did not need a guardian. Why? A lawyer's job is to protect and defend their client. That is what a lawyer is supposed to do for their client by lawyer ethics and rules. Jaskowiak and the judge refused to let my Mother come to court to defend herself. Why? Because jaskowiak and the others in the racket in Orphans Court in Norristown wanted Mother and other victims to be guardianized just to get their assets and homes for money. Go to Facebook: Shenanigans in the Montgomery County Court.

Guardianship corruption like this has been going on nationwide for decades by corrupt judges, corrupt guardians, corrupt psychologists and corrupt lawyers. This time by the greedy daughter who only wants Mother's money ASAP. Plus, the shister who represents her for her required billing hours and helps to keep the scam on Mother going.

What a disgusting scam, by sadist criminals, on helpless senior citizens who only have a little forgetfulness. Why do shisters use yellow pads? Do they forget? Then, steal from them and put them into disgusting nursing homes for life and treat them less than animals in a cage. My Mother is NOT a animal in a cage.

invoice

Camp,

I cannot believe your client is so indifferent to the massive waste of lawyer billing hours, wasteful guardian costs and the money being rapidly being depleted from the estate AND her inheritance and mine. Why doesn't she care about wasting \$90,000 a year for that tiny pig pen when I have found much bigger, much nicer and much cheaper places for Mother for the past 2 years, but nobody (guardians, jaskowiak) and your client, wants to put Mother either back home to be happy or a place where she is living a normal life.

Mother may need that money someday for care if she has a stroke or other problems. The money is for her, not lawyers and other strangers who think they are entitled to it. I don't get her attitude and stupidity. She wanted to be guardian for the money, so why is she allowing it to be wasted by strangers?

blumer invoice

Camp,

I am curious when your client will realize her inheritance is being rapidly drained by the Racket: Jaskowiak, pam Blumer, Bill blumer, all of those lawyers he hired, Deb Klock (who has a long history of theft of her clients and over drugging), Ledakis and his quack reports?

Your client continues to fail to realize the Racket's game plan is the same nationwide of other corrupt guardians. Once the money is gone, her and my inheritance is gone forever, unless she is one of the Racket and is getting a piece of the action.

How can your client allow such massive losses when there are only a few issues that can be easily worked out in a short meeting. That is why there is mediation.

I cannot believe that my Mother's daughter, after Mother has done so much for her and given her so much, would allow her 98 year old Mother to go from a large 3 bedroom, 3 bath house, in a private gated community to die in a tiny pig pen, in solitary confinement, in a sensory deprived environment, no phone, no extra food to eat, not allowed visitors, no letters or cards, no people to talk to during the day and has not been allowed outside into the world or to see her loved possessions for two years. How can your client claim that she loves her Mother as your client said in court and was filing the petition only to be closer to her Mother?

Very sick! Just as sick as the lawyers that are playing her to keep making money at the expense of a 98 year old person.

camp,

Explain to me, since you never have, why your client, my sister, has refused to allow mother to live at home, at the court accepted rate of about \$16,500 a year, where she can be with her loved possessions and be free to be involved in society, enjoy going to her hairdresser, restaurants, watch her favorite TV shows, etc as opposed to now where she has been caged like an animal, for the last 2 years in a low rated nursing home, in a locked in section, in solitary confinement, in a sensory deprived environment where she gets no physical exercise, no mental "exercise", no phone to call people, no visitors allowed, no food that she likes to eat (especially since it has been proven that I never caused mother's legs to be swollen), she is locked in with people with mental and behavior problems and her cage is costing Mother \$90,000 a year? Mother has been there for 2 years. Why does your client NOT care that when my mother dies, your client will have lost at 50% of that cost of the nursing home, in other words she will have lost about \$90,000 of her inheritance just in 2 years. That makes NO sense if your client is that financial genius she claimed she was in court at the petition hearing.

How can your client claim in court she loves her mother, but she kidnapped her mother where Mother was shaking and crying saying she did not want to go with your client, tormented and starved her for 2 weeks in her home, then Mother passed out, had to be taken to the hospital, unconscious, by ambulance, confined to bed for 6 weeks, treated for starvation, had to get daily blood tests (42 times), daily needles in the stomach to prevent blood clots (42 times) and then got covid where she could have died?

Does your client love or hate her mother? Why is she close friends with the people that are stealing from mother and forcing Mother to live and be caged like that? Actions speak much louder than words. Elder abuse and financial exploitation of the elderly.

your client

Camp,

As I was rereading your email where you said your client thinks I should (LOL) pay for lawyer fees because she thinks I am causing them (LOL), I have seen logie's invoice when he was guardian of estate and person in the first year of Mother's ownership by the Racket.

There are A LOT of emails and calls to and from logie to your client. PLUS, all of the money wasted by your client and the others in the Racket for the prison cell Mother has been forced to exist in for 2 years in solitary confinement and in a sensory deprived environment at the cost of about \$90,000 a year, when the court accepted cost of Mother living back at her home is only \$16,500 a year. Many times I have found much nicer, much bigger and much cheaper places for Mother to live if she ever had to go to a REAL nursing home, but all of you in the Racket have refused, no reason given.

As I have said many times, my Mother and I had discussed what she wanted years ago and she said if she ever needed care, there is the spare bedroom and bathroom of my late father for any nurse to use. Again, no reply from the Racket.

Let your client start making those payments for all of her emails, phone calls to logie because of his and her "plan" and the waste by her and the Racket for that pig pen, inhumane and barbaric daily living Mother has had to live through for 2 years at here age of 98.5.

Do you hear that you so-called guardians, their lawyers, jaskowiak and klock?

camp,

Still no reply from you on this matter. Will your client pay back Mother's estate for what SHE caused in legal costs and guardian costs with all of her emails and phone calls to logie, plus the massive costs to mother for the pig pen your client and the Racket is costing Mother instead of going back home or to a much nicer, much cheaper and much bigger place as I have tried to get for Mother since she was kidnapped by your client and logie? I am losing that money from my inheritance that your client caused with her fake guardianship just to get control of Mother and her money as she had tried to do for years, with fenstermacher's help, but I always stopped them.

covid

Camp,

Is your client aware that about a month ago, pam blumer put in her notes that manatawny manor had 41 cases of covid on the first floor? I know they still do not wear masks and do not check temperatures in the lobby of guests like they use to.

According to a study, about 39% of all people that died from covid are in nursing homes. Mother has had covid twice and influenza once. In 5 months she will be 99. Why does your client insist she stay there in extreme unsanitary conditions, where Mother could die an extremely painful way, when she can be living at home safe as she was before she was kidnapped by your client over 2 years ago.

Does your client really hate her mother that much and want her money that bad?

Mother's assets

Camp,

I saw in your reply to blumer leaving, your client raised the question about my Mother's assets being undervalued. What is she claiming about them?

I am always open for discussion of this matter pertaining to my Mother having any more of her assets stolen and also of her being treated like a animal in a cage for the past 2 years only for her money by the Racket. I have been only concerned for Mother's physical and mental health and her happiness, which is what I have been fighting for the past 2.5 years since this scam was started of guardianship fraud.

estate assesment

I saw in your/camp's reply recently, as per a new guardian, you said you did not agree with the inventory assesment. I have known all along these people have been stealing Mother's money for themselves in various covert ways, as these type of corrupt guardians and their lawyers have done nationwide for decades. The people involved with Mother, especially the guardians, lawyers and Klock have a long history of doing the same criminal activity to other familie's loved ones. I have been in contact with those families for two years.

Two years ago, I put up a major website about guardianship corruption www.protectmyparents.us Guardianship corruption like Mother's has been nationwide for decades.

I have tried for 2 years to get the money waste stopped by the Racket, but the Racket has protected themselves and you have been on their side. I do not know why you have allowed \$90,000 (\$45,000 a year x 2 years was \$90,000 of your inheritance) to be wasted at Mother's pig pen when she could be living at home at the court accepted cost of only \$16,500 a year. Mother can still live at home. I continue to find much nicer, much bigger and much, much cheaper places for Mother to live and be happy and healthy if not at her home. Dad's bedroom and bath is free for any day care worker. Mother has been kept in solitary confinement, in a sensory deprived environment for 2 years and is kept caged like a animal in a zoo. Because of lack of exercise, she can barely walk, has no contact with the outside world, no phone to call freinds, active covid is still there and she has nothing to do there every day, compared to her active physical life at home when she was happy and free.

As you know, 50% of the money stolen/wasted by the Racket and at the pig pen is your inheritance and the other half mine. I will not let those crooks steal Mother's money and later mine.

Mother deserves to be happy and enjoy her life.

If you want to discuss this between you and me, contact me.

Re: Cease and Desist from false accusations and demonizing

Ms. Camp,

Since this guardianship scam and fraud began on my Mother, Jane Herring, in May 2021, Ms. Jill Herring, Judge Weilheimer, various guardians, their lawyers, their paid off "monitors" and you, began and have continued a campaign of vicious lies in writings and verbal attacks on me, my good name and my established good image. Among the various lies, by this orphan court "Mafia", include I "agitate" my Mother and I caused her legs to be and stay swollen because of food that I used to bring her. Those lies have been used to demonize me, blacken my good name and tarnish my clean image as a loving and caring son to my Mother. Those lies have been used to put me into prison twice and those lies have been used to drain my savings in various ways.

This Mafia continues to refuse to reveal the qualifications of their paid liars to do what they have been told to do as "monitors": make up lies about me to be used against me, mainly to reduce and drastically restrict my visits with my Mother and her with me. The never named "staff", of the nursing home, and their never proven accusations involving me, have also been used to demonize me and to cause me various costly, legal issues. But, this Mafia continues to refuse me all means to prove what I did or did not say or do in my visits with Mother. Since the beginning of this guardianship fraud, that also has included refusing to allow Mother to come into court to speak for herself and say what she wants, as allowed by law. As I have made clear many times in court, a free and non-intrusive cell phone can be used for my protection and prove any violations by me. The Mafia again continues to refuse such a simple and free way of solving this and many other issues and problems I have found pertaining to Mother's physical and mental health, her financial welfare and most important her happiness. It is very clear the Mafia has refused cell phones because they cannot be paid off and cannot lie for them, NOT as it claims that it would violate Mother's privacy. The Mafia violated her right of privacy when they dragged her away from her house to be their property and their bank account.

Recently, I filed a petition for the Mafia to either prove their accusations or "Get off of the toilet". But, you demanded Judge Sterling deny my petition to be heard. As you wanted her to do, Judge Sterling denied me my right to be heard and to prove my case. Every lawyer knows the basis of U.S. law is a person is innocent until proven guilty in a court of law and a person has the right to face their accusers. The Mafia has refused to obey U.S. law because they know they cannot prove any of their vicious lies about me and by others. Those various lies have been used to punish me and my 99 year old mother financially and emotionally by using the visit numbers, the length of visits and the scope of those visits as a source of barbaric and inhumane punishment to both her and me only because I have been exposing this guardianship money scam and the people involved from the beginning. The Mafia believes Mother is their property to use only as their "whore", to make them money. The Mafia has broken countless state and federal laws pertaining to guardianship and giving the victim the right to live where they want, how they want and deciding how the guardians and guardianship is to be operating. Essentially, being able to live free and enjoy life as a human being in society.

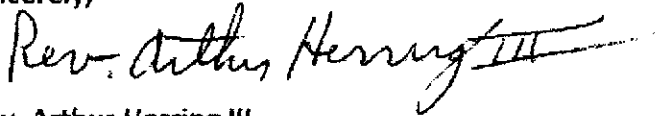

The barbaric and inhumane treatment to my Mother by this "Mafia" for the past two years have caused tremendous physical, mental and emotional stress and pain to her, to her happiness, to her medical

and mental health and to her finances. Mother is now almost 99 years old. This Mafia has been content to force Mother, their client for over two years, to live in poverty, in a tiny room, locked in solitary confinement, in a sensory deprived environment, with much less privileges than POW's have under the Geneva Convention and much less privileges than people in prison have for various crimes. Is that the Mafia's idea of guardianship?

Those lies and others by this Mafia about me in this scam have cost me a great deal of money, a house and several years of my time spending every day trying to protect and defend my Mother from this Mafia and to get her back home. There, she had lived happy, healthy and without any problems before the Mafia's guardianship scam grabbed her.

Therefore, I demand that you and the others of this Mafia cease and desist all current and future use of those lies and any others about me, whether verbally or in any writings by using my identity to enrich yourselves. Since no evidence of fact has ever been presented to verify those lies against me by any members in this Mafia, that constitutes a false narrative and is also called liable and defamation of character. If you refuse to do, after receiving this letter, I will have no choice but to take further legal action.

Sincerely,

A handwritten signature in black ink that reads "Rev. Arthur Herring III". The signature is written in a cursive style with a long horizontal flourish extending to the right.

blumer's charges

Camp,

For your information and your client's, my petition to have most of blumer's charges dismissed were never heard by sterling last week, but she will be making a decision on them soon. The fact is, those massive charges by blumer's lawyers, including her husband, and "care manager deb klock are solely the responsibility of blumer as part of her business, NOT paid by Mother.

In addition, as you and your client are aware, a paid monitor was hired by pam blumer since Novemeber 2022 with brandi and currently mary ellen during my visits because blumer and never named staff claimed I was "agitating " Mother during my visits and phone calls and also I had made my Mother's legs swollen. Nobody has ever asked Mother if I did. I paid for some of those monitor visits, but Mother's estate has paid for most of the the others. On Wednesday, I was able to prove that mary ellen has no training at all (she admitted it) to listen accurately, make notes accurately, make quotes accurately while continuing to list, etc. In other words, she was told to make up lies against me by the guaridanship mafia to restrict and to eventually deny me visits with my Mother. I have known that since the monitors first started. I also learned during that hearing last week, that mary ellen was not paid to be there for one hour for my visit at \$25 for that hour, but blumer told her to be there for 5 hours and for \$125 per visit, all paid by Mother. Mary ellen claimed she sat with mother, cleaned her room, walked with her, etc. That was the staff's job and pam blumer's responsibility as the guardian. Blumer has no right to hire her freinds and charge those hours to Mother.

As your client knows, Mother has lost and still losing a great deal of money because of how this scam guardianship is being done by this mafia. Those losses include her expensive pig pen nursing home instead of being at home at far, far less money, the massive fake invoices by the guardians, their lawyers, jaskowiak and deb klock.

The massive money being wasted, as I have told you and your client before, when Mother dies, 50% of that money wasted was your your client's inheritance and the other 50% is mine. I will not sit and allow my inheritance to be stolen by thieves. In addition, as your client knows, Mother's lack of exercise being kept in solitary confinement for 2.5 years now and the many times Mother has slipped and fallen on the waxed floors, there is no

promise that Mother made need constant intensive care for those related type injuries. Money cannot be remade. Fenstermacher admitted in court a month ago, he thought his job was simply to sign checks. He did not seem to care about the fraud and waste blumer, her lawyers, jaskowiak, etc are costing Mother.

I was the only one to get rid of blumer and her gang. It will be saving Mother a lot of money. I do not understand your client's indifference to this ongoing loss of money when it can be easily saved and Mother will live her life happy, healthy and free again as she had been before this guardianship scam started.

Herring was filed. Petitioner was Jill Scott Herring who is the daughter of the alleged incapacitated person and the sister of Arthur Herring, III ("Brother").
4. A hearing is scheduled on the Guardianship Petition for July 12, 2021, before the Honorable Gail Weilheimer.
5. Sister's guardianship petition requested that she be appointed the plenary guardian of both the Person and the Estate of the parties' Mother.
6. The Guardianship Petition contained allegations regarding Sister's historical employment experience, education, and current employment status in support of her qualification to serve as Plenary Guardian.

7. No substantive documents were included in the Guardianship Petition to substantiate Sister's assertions regarding her fitness to serve based upon her employment. Sister's financial status is relevant to her qualification to serve as guardian.
8. The Guardianship Petition failed to include an acknowledgment that Sister borrowed \$100,000 from Mother to purchase a home when she averred that she has no interest adverse to Mother.
9. No documents were provided to establish that Sister has made repayments to Mother for this loan which may constitute a potential adverse interest to Mother.
10. The Guardianship Petition included an overwhelming number of averments attacking Brother in every way possible but failed to include actual support for Sister's assertions regarding her motives and interest in serving as plenary guardian.
11. This is a complex matter with competing interests between family members which requires full discovery of Sister's financial status, Sister's communications with Mother's medical providers, and Mother's financial institutions via a Request for Production of Documents.
12. The undersigned has spoken with counsel for Sister and Mother who did not agree to engage in discovery which necessitated the filing of this Petition.
13. A copy of Petitioner's proposed Request for Production of Documents will be provided at the time of any hearing on the instant Petition.

WHEREFORE, Petitioner, Arthur Herring, III, respectfully requests that this Honorable Court issue an Order authorizing the parties to engage in discovery in this matter prior to hearing on the Petition for Adjudication of Incapacity and for the Appointment of a Permanent Plenary Guardian of the Person and the Estate of Jane Herring.

Respectfully submitted,

jill,

You still have not returned mom's call about you returning her tax documents so she can have her taxes done. Mom want's my cpa to do them. It is Wednesday at 8:15am.

I have your emails you sent Dr. Kuhar last year about mom and me. They were only lies by you, a 70 year old woman, who does not know anything about me or my mother.

She needs those tax documents. You do not have those other tax documents that are here so you cannot do her taxes. As you recall, last year, you filed her taxes a day late over the deadline.

Note

Jill Herring called to report an incident that happened this past Saturday while at her mother's house on Chance Court. She said her brother, Author Herring, pushed her and kicked her in the back while inside the home. She said her brother is a violent person and is trying to manipulate his way into their mother's home. Jill said her mother suffers from mild dementia. Jill said she has limited power of attorney on her mother's finances, but not full power attorney over her mother. Jill thinks her brother is trying to move in with their mother to take over power of attorney and steal money. She also added her brother threatened her not to come back onto their mother's property.

During my conversation with Jill, I asked her if she wanted something done about being assaulted by her brother this past weekend. Jill said that she did not want to pursue any charges, but wanted a report on file.

Jill and I spoke for a while and I advised her the best course of action for her was to hire an attorney to help with the power of attorney. I also added that she needs to call immediately if her brother assaulted her again. I also told Jill that her mother owned the property and it was up to her to have who she wanted on the property and not her brother. Jill understood and will look into an attorney to assist her and will call if our department is needed further.

Jill

I will be at the house at 11:30 today. At 12 noon, no later, we will be leaving to take mom to her doctor's appointment that had been scheduled several months ago. Mom said you were going to be there at 12 for her to sign some papers. I left you a voice mail telling you I told her not to sign any papers until I see them. You had told me not to contact you, only send messages to Mr. Fenstermacher and he would relay them to you. You are acting very unstable and immature. You proved that twice at Dr. Kuhars office. He had said he will be charging mother his regular fee for doing what you want to be done. That is a waste of mother's money for no reason.

It's been over a month and you still have not responded to the information I asked for. This is for mother's benefit. I left a message for Mr. Fenstermacher about 10 days ago informing him that you are not cooperating in helping mother. I also need a list of what items are auto paid so I will know when she asks.
I couldn't care less that you hate me. It has gone on for 55 years. This is for mother.

Good morning, Jill & Art,

I have for some time been aware of the disagreements between you with regard to your mother. I think it would be helpful for you and for her if the three of us were to meet in my office to discuss your views and to come to a consensus with regard to going forward. I believe that you both are sincerely motivated by what you feel is in your mother's best interest but don't agree on what that is. If you agree to meet, please provide me with some dates that would be convenient for you.

In the short term, I understand from Jill that your mother's real estate taxes and car registration renewal are due shortly and that neither she nor your mother have checks. Art, these payments must be made or penalties may be incurred. If you have made these payments, please advise me. If not, we have to have them paid. If the two of you cannot come together on this, I will need to step in in accordance with your mother's Power of Attorney.

Best regards,

Ron

Jill,

It is amazing that you seem to know mother so well to make a severe diagnosis like you made in your email, when you are ONLY with her, maybe, for 3 hours on a Saturday while you do your shopping then go to a quick lunch(that mother always pays for) then you go home and she leaves. During that time, you talk(dictate) about your politics, your religion or your problems. I have been there literally 7 days a week since Dad died(6 years), for about 6 hours a day, starting about 3pm to 9pm. Mother has NO signs of any of those problems of sundowners, except sometimes forgetting little details. She can still drive without problems, cook meals correctly, read newspapers and other day to day functions, including personal hygiene. She has NO mood swings. Because she forgets minor details once in a while, you are ready to pack her up, sell her house and ship her to a retirement home where she will only have a tiny 2 room apartment. Those places take basically everything a person has as assets. Some of her friends moved to those places, including when Dad was moved, and she knows the costs of them. Is THAT how YOU want her to live?

I have been there many times in past years when YOU had YOUR mood swings because you have always thought you were smarter and better than everyone. During Dad's last 2 years, I saw how you would yell at Dad so bad, that he had to tell you to leave the house. I saw how he cried afterwards because you upset him so. Your own father! I have been there when you have yelled at mother on the phone so loud I could hear you. Mother just lets you go on. Anyone else would hang up on you.

Jill, I am NOT out of touch. Medical coding does NOT qualify you as a doctor. I know, with facts, about mother because I spend a lot of time with her, 7 days a week. Try to remember your religion that you seem so devoted to that says "honor thy mother and father".

Jill

You must stop yelling at mother. There is no reason for it just because she has a slight memory recall sometimes. Last week and tonight she was crying because you yelled at her. Why don't you remember she has that slight problem sometimes and simply repeat what you had told her, without the yelling? She knows she has that problem and she is embarrassed by it. She is 94 and we are lucky she is in as good health and alert as she was 5 years ago. She drives fine and cooks without problems. She has a maid only to do light cleaning, including the bathroom.

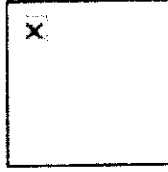

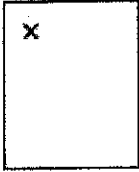

There is also no reason to keep bringing up nursing homes. They are extremely expensive, would take away almost all of her money and not needed at this time. She has the house and all of her things she has had throughout her life. She would have to give away basically everything to live in a one room or so apartment.

Dear Chief Police-Franconia Twp:

I want you and Police Officers Stiver and his partner (apologize to partner as we failed to record his name) for compassionate guidance and support to my family and especially my Father Art Herring 26 Chancery Court, Souderton 18964 on Monday December 10th. I also wish you would forward this email to the Ambulance Medics who assisted as well.

My Father is suffering from advanced dementia with psychosis and at that time did not recognize my Mother. He was walking away from home and your police officers gently and calmly brought him back home and spent hours coordinating ambulance, primary doctor as well as informing us of various options to consider. The Officers and Medics talked to him for hours to encourage his trust to reach a successful conclusion - Dad agreed to go with Medics to GrandView ER.

While I certainly know the range of situations and responsibilities our Police have to deal with every day. I was still overwhelmed and grateful for their professional yet humane skills, abilities, and intelligence in this situation for over 3 1/2hrs.

Please forward this email to both Officers and tell them that Dad was accepted at Eagleville Geriatric-Psychiatric Facility for evaluation and treatment. We hope he is able to return soon and we will cherish every moment with him.

Have a Blessed Christmas and Holidays.

Dear Ms. Herring:

I want to let you know that I certainly appreciate the kind words that you've expressed about the two Franconia officers who assisted you and your Mom and Dad on Monday. The officers, Shawn Stiver and Travis Bivighouse, made me aware of their response to Chancery Court shortly after they returned to the police station that day. I am proud of both officers and I have made them aware of your thoughts. I have also forwarded your message to the crew from the Souderton Community Ambulance Association who worked hand-in-hand with the officers.

All of our officers have received continuous training in helping persons who are diagnosed with dementia, as well as their families. Officers Stiver and Bivighouse are very compassionate men. They exemplified our department's philosophy when they took the extra time to try to resolve an issue to the best possible outcome upon the first visit, rather than making repeated visits to calls for assistance, which would have just delayed the inevitable.

I am pleased to learn that your Dad is in a safe environment at Eagleville. Our thoughts and prayers are with you and your family while you go through this difficult time. Please know that you may call upon us at any time to provide any assistance that you or your family may need.

IN THE COURT OF COMMON PLEAS OF MONTGOMERY COUNTY, PENNSYLVANIA
ORPHANS' COURT DIVISION

NO. 2021 – X2110

IN RE: JANE T. HERRING,
AN INCAPACITATED PERSON

**RESPONSE OF JILL SCOTT HERRING
TO THE JUNE 27, 2023 COURT ORDER AND
JUNE 21, 2023 REPORT OF DR. LEDAKIS**

TO THE HONORABLE, THE JUDGES OF SAID DIVISION:

In accordance with this Court's Order dated June 27, 2023 and upon review of the June 21, 2023 Report prepared by Dr. George Ledakis (the "2023 Report"), Brittany J. Camp, Esquire, counsel for Jill Scott Herring ("Jill"), daughter of Jane T. Herring ("Jane"), an Incapacitated Person, respectfully provides an opinion, on behalf of Jill, with respect to future visits between Jane and her son, Arthur Herring, III ("Arthur").

Jill strongly believes that it is in Jane's best interests that any and all future visits between Arthur and Jane, to the extent permitted by this Court, continue to be supervised and monitored and that during any such visits, Arthur continue to be prohibited from discussing topics with Jane, whether orally or in writing, which are or may be harmful or detrimental to Jane emotionally or cognitively, as determined by the Court, Jane's court-appointed counsel, the Guardian of Jane's Person, and/or Dr. Ledakis. Notwithstanding the foregoing, in light of Arthur's prior violation of various Orders issued by this Court, Jill believes that Arthur should be prohibited from visiting with Jane in the event Arthur's actions cause him to be in further violation of any existing or future Orders issued by this Court.

Additionally, Jill believes that Arthur should be personally responsible for any and all costs incurred in connection with his visits with Jane, including but not limited to the cost of

supervision and related reporting to this Court, as well as any fees incurred by the parties or their counsel due to Arthur's violation of any Orders of this Court related to the parameters of his visits with Jane, and that such additional expenses should not be borne by Jane's estate, unless they are to be allocated to and deducted from Arthur's share of Jane's estate upon her death.

In conclusion, Jill has no objection to the Court issuing an Order, consistent with prior Orders of this Court and Dr. Ledakis' recommendation in the 2023 Report, requiring that Arthur's visits with Jane continue to be supervised and that the other measures imposed by the Court in an effort to best shield Jane from undue harm related to Arthur's visits remain in place.

61,

Jill

Don't you ever threaten me that you are going to sue me if you don't get your way involving matters involving mother as you did to me last night on the phone. In this case, about getting mother's checkbooks. You said on the phone last night you have power of attorney. For your information, I also have equal power of attorney. It was set up by mom and dad's estate lawyer many, many years ago in case if one of them cannot act for themselves. We both have EQUAL power in case something has to be decided in any matters involving mother if she is incapacitated. If there is a "tie", the lawyer makes the decision.

As I told you last night, if you want to sue me, go ahead. Lawyers today demand at least \$10,000 as a retainer. Do you have that kind of money to throw away? You would lose the case and lose the lawyer money because you have no credible reason suing me. I can also counter-sue you for filing a frivolous lawsuit and abuse of civil procedures. You will lose because you have no real reason to sue. You are demanding people jump and do what you demand, even when you are totally wrong. Just like a child, if you don't get your way, you throw a temper tantrum. Everyone saw that at Dr. Kuhar's office a month ago when you humiliated yourself by your lack of knowledge concerning mother's abilities. After insulting a medical doctor, you ran out of the office because you did not get your way. You showed how childish and bratty you are and always have been.

You never responded to my email yesterday. I keep the checkbooks because mother has misplaced/lost them before. I want to save her from embarrassment of constantly asking for replacements of those checkbooks and the cost of replacing them. Will you pay for those replacements when she loses them at about \$40 or so each? I do not think so. I give her a check when she writes one so she always has a Harleysville check for petty cash and a Raymond James check for big purchases.

It is clear, you have such hate for me, you think I am trying to take over, control mother's life and maybe get money from her. That is a lie. I love mother and spend a lot of time with her. There is no reason why she should be alone most of the time. I do most of the shopping for her and pay for it. I take care of mother's car for maintenance, waxing, washing, etc. I take care of matters around the house including doing the dishes, painting, waxing the floors, driveway, etc. I buy her things to make her life nicer, including canes, cushions, dvd player, taking her out to dinner, take her to the cemetery (once a month since dad died and taking him roses each time), buying mother roses on a regular basis, etc. You pull up some weeds once in a while and leave the smelly bag there for me to put in my car to take away. Finish the job you start.

For the past decades, you totally ignored mother, like she was a nobody. You still do today for the most part. Only for the past couple of years, do you take her on Saturday to pick up your cleaning, go to the market and she buys you lunch. Maybe you see her in church. Maybe a movie a few times a year. Making her soup and giving her a facial once in a while, is hardly spending time with her as a loving daughter. There is no excuse why you don't have her over for dinner on a regular basis, several times a week, while she still drives. Taking her on a day trip once or twice a year is nothing.

You stuck to father like glue all of your life and only wanted to be with him instead of mother. During that time, you basically ignored her. I thought that was very wrong and hateful.

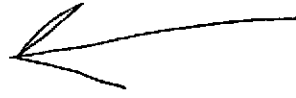

Your childish, short tempered and basically bitchy behavior, is hurting mother and causing her very much pain, suffering and emotional distress often, almost to the point of her crying. I am there and see it. I am there when I hear you yelling at her while she is on the phone sometimes and how she basically has to almost hang up on you because of your bitchy attitude. She was crying openly yesterday and actually shaking because of your yelling at her and your constant open hate of me. Her short time memory loss is causing her to be very frustrated at herself because she cannot be as perfect as she was and independent. She knows she does not remember things and the problems it causes. Why don't you realize that and be far more understanding as her daughter? She is a very loving mother who has given you much money, instead of spending it on herself. She does not buy things for herself to save it for her children. She wants her family to be a family, not to fight and to get along.

Artie,

Unless you are willing to meet with Ron Fenstermacher, please do not communicate with me about financial matters as I am taking full responsibility for them. Everything is under control and I have excellent relationships with Raymond James Matt Fisher, Matt Pruitt Dale Hoerlein and Mark Breon.

Subject: unknown papers

Mr. Fenstermacher,

At least a dozen times after my father died in 2013, Mother told me my sister demanded her to sign papers in sisters car when they went out. Mother refused all of the times, but she told me she finally signed them just to shut sister up. Mother said she never got a copy of those papers she signed from sister.

I do not know what they are about, but I am putting you on notice in case anything strange shows up, such as anything special for my sister from my mother.
