

LEDAKIS & CARROLL

Ledakis and Carroll were psychologists. Both were quacks. Ledakis only had his PhD for a year before he was hired by judge weilheimer/jaskowiak to do a "evaluation" of Mother to determine her "incapacitation" for guardianship in July 2021. As my email to my former lawyer, Meitner, who I had for about 14 months before he quit for health reasons, I discovered that neither of them had ever been a member of the American Psychological Association and ledakis had never been a member of the Pennsylvania Psychological Association. Carroll had only recently been a member of the PPA. Why would ledakis and carroll not want to be members of the APA, unless they were not that smart or had the abilities the APA or the PPA would want as members?

Carroll was hired by my Mother to get a evaluation for competency. It was done before the petition for guardianship was filed by my sister, jsh, in May 2021. My Mother wanted it for legal reasons because she had just made some minor changes to her Will. Carroll spent only one hour alone with my Mother. He refused to have me there during that time. He later refused to let me know anything about the independent accuracy of his "evaluation". Carroll charged Mother \$1,000. He claimed Mother was not competent. But, who knew the abilities better: a quack who had unverifiable tests or me, her son who was with Mother 24 hours a day living with her for 2 years and before that everyday, for 6 hours for 8 years after my father died?

Ledakis also my Mother was "incapacitated", but he was only with her for 1.5 hours and admitted in court, by my questioning, that he had NO independent proof of accuracy for any of is paper and pencil tests that he or anyone else could download off of the internet for free and ledakis admitted he had NO independent proof of accuracy for his "evaluation". Even after I established ledakis as a fraud, the guardianship mafia hired him several more times because he always said what they wanted him to lie about me because I was exposing the guardianship scam on Mother by them.

ledakis, carroll

Mr. Meitner,

I did some checking and still waiting for one other source. Neither Ledakis or Carroll have been members of the American Psychological Association which is a national and international organization. Ledakis has not been a member of the Pennsylvania Psychological Association. Carroll has been since about 2015. I am waiting to find out if their PHD's are real.
