

On august 30 2021, I asked new guardian of person and logie a question of what drugs my mother was being forced to take that would affect her mind. He refused to answer. He and the others in the guardian mafia do not think the family has any right to ask about their loved one after guardianship.

Arthur,

Subject: jane herring pills

Mr. Logie,

Is my mother being given any type of pills that affect her behavior other than the one she must get for her cholesterol?

Mr. Logie,

Why was my mother removed from the house?

Why am I being forcibly removed from the house?

Why am I being denied the right to see her and talk to her at any time and for as long as I want?

Why did you hire a lawyer for yourself at my mother's expense?

You told the judge you are selling her car. Why? She has the right to have it sit there if she wants or let me drive it when I take her places.

Are you going to sell her house possessions?

Are you going to sell her house?

If so, where is she going to live?

I asked for copies of your credentials and certificates, but you have not provided them.

I asked for a copy of your insurance coverage pertaining to your business, but you have not provided them.
