

At the second contempt hearing by jaskowiak on me for exposing information about the guardianship scam on Mother on October 3 2022, , weilheimer convicted me and said if I paid jaskowiak the \$4600 for his "time" to make the contempt petition, that would be the end of it. That meant it was a civil contempt, no jury or public defender. But, like always, weilheimer lied and put me into prison for about 2 months until my IT person forced Google to delet the link on my news website about the scam to Google's Wayback machine with the original information about the scam. Since prison was a option, that meant it was a criminal contempt hearing and I could have a trial and a jury could decide. Weilheimer changed the law for her own needs to make sure the law was not used for my benefit.

More corruption by the mafia.
