

BILL BLUMER AND HIS MOUTH

Bill blumer is the husband of pam blumer. She was appointed guardian of person to Mother after I forced logie, who was appointed guardian of person and estate by corrupt judge weilheimer, to quit. Logie had to quit because I was exposing his massive corruption, stupidity and incompetence taking care of Mother from august 2021 to may 2022. Logie hired deb klock as a so called care manager and a shister by the name of diane zabowski as his lawyer as soon as he was hired. Logie did not have the power to do that. If he wanted to hire them, HE had to pay them. But, he billed both of them to Mother. Klock has a well know history of over drugging and stealing from her victims. Why did logie hire klock as a care mananger when he was a guardian of person? Corruption!

I exposed the fact that pam blumer had lied when she was hired in may 2022. She claimed she was a certified guardian. To this day, she still is not. Immediately after being appointed by weilheimer, she hired her husband bill as her lawyer and also kept klock on. Why? Just like logie, she also was a guardian of person. Both blumers are very good friends of David jaskoiak. More corruption. She should not have hired her husband because that is a conflict of interest for lawyers to do that. In addition, shister bill then hired many lawyers from his shister law firm, barley-snyder. Again, corruption. All of them billed Mother just to make more money for themselves. Mother never got any benefit from them.

A few months after she was hired, my then lawyer wanted blumers, him and me to hve lunch together to discuss matters. Shortly afte we sat down, bill says to me "You are the fucking problem". No lawyer ever talks to a lawyer's client that way. I got up and walked out of the restaurant. Both blumers never apologized to me in any way. In a phone conversation, bill blumer said a month or so later that Mother "Only had the rights of a dog". Bill blumer never apologized for that either. He was replaced as the main lawyer for pam blumer by another shister, gelsinger.

Blumers thinking about Mother and me, her son, explains their barbaric, inhumane and disgusting treatment of Mother.
