

FENSTERMACHER REFUSES TO CORRECT HIS MISTAKES

In late 2020, Mother had a independent law firm evaluate fenstermacher's Will, Trust, etc, of mother's that he made about 22 yers ago. Fenstermacher refused to respond to me on that matter.

In addition, the mafia was always claiming I was coting Mother a great deal of money on lawyer fees by my petitions. But, my petitions were always proving the problems that affected Mother and the need to take Mother back home where she would be happy, healthy and save a great deal of money. I also told fenster that those lawyers and care manager klock were not Mother's responsibility for payment. It was only pam blumer as part of her business. Plus, blumer was the guardian of person and klock was not needed. Logie hired her and zabowski and they were HIS responsibility for payment, not Mother.

Landis changes

fenstermacher,

Did you ever make the corrections that the law firm of Landis, Huntserger found in your various documents?

Also, now that I got blumer and her entourage fired, that leaves more money for Mother. How come you never thought of that since blumer had no authority to hire all those people and charge Mother, your client and guardian of her estate. Those include Deb Klock, who has a long history of stealing from and overdrugging her clients. Logie hired her first and blumer kept her on. According to the court docket, Klock has 91 "clients" (victims) just in Montgomery county. How many does she have total? If you doubt my information about Klock, I have many other people that were victimized by Klock.

If you don't think guardians steal, then look at the attached recent article on Gloria Byers and go to my website of 2 years www.protectmyparents.us
