

GELSINGER TALKS TO DA STEEL AS PER WEILHEIMER'S INSTRUCTIONS

WTF? Shister gelsinger, who took over from loudmouth bill blumer as liar pam blumer's shister, was told to talk to DA detective Kelly for unknown reasons by corrupt shister judge weilheimer. One can only assume gelsinger and cry baby jaskowiak were trying to get steele to prosecute me for "wire tapping", claiming I was videotaping Mother without her permission.

But, NONE of those shisters ever cared to meet Mother, either at all, or on a regular basis to know what MOTHER wanted. Cry baby jaskowiak only saw Mother 2x and fenstermacher admitted in court he had not seen or talked to Mother for the past 4 years, including his almost 2 years as her guardian of estate. But, he also admitted in court he thought his only job was to sign checks to the mafia and NOT worry about fraud and waste in the mafia's invoices. The so-called "guardians" of person and estate and the shisters involved refused to carry out federal laws, state laws and the rules for the AIP. The corrupt judges only rubber stamped anything the mafia wanted for themselves: money from their invoices.

In addition, weilheimer tried to use another way of denying me visits with Mother. Weilheimer wanted me to be "evaluated" by quack ledakis to prove I was not a danger to Mother in my visits, even with one of the mafia's paid liars (monitors) sitting with Mother and I. Weilheimer claimed if I took the quacks fake "evaluation" (like the one he admitted he used on Mother that had no independent proof of accuracy), weilheimer would let me have more visits with Mother. I knew the quack ledakis would lie for the mafia, like he did with Mother, just so the mafia would hire him again, thus ledakis would make more money. I knew it was a trap and I refused.

BUT, in fall of 2023, with corrupt judge sterling, I filed a petition that said "Prove Arthur herring is a danger or menace to Jane herring, in other words either defecate or get off of the toilet". All of the shisters begged sterling to deny my petition because they had NO evidence that I ever upset Mother and they did not want Mother in court to say I never upset her and I always made her happy. Sterling denied my petition.
