

MOTHER MAKES SOME CHANGES TO HER WILL

Mother decided in March 2020, about one year before sister, her lawyer camp and fenstermacher filed the fake guardianship petition on Mother, to make some minor changes in her Will. Mother thought that because I was always helping Mother out after my father died in 2013, such as buying her groceries, taking her out to dinner, getting repairs done around the house, keeping her car in great condition, etc, Mother thought I should get a little more than sister. Mother knew how sister was a very spoiled child with private schools, private college, etc. Mother made up a list of changes. She signed, initialed and dated each item. Because fenstermacher and sister tried to steal money from Mother in various ways and I always exposed them, Mother fired fenstermacher and she hired a new lawyer, Fravel, to make those changes.

Sister/camp at the petition hearing got weilheimer to get quack ledakis and his fake evaluation to say Mother did not know what she was doing as far back as November 2020 when fravel made those changes. Weilheimer denied mother's new Will.
