

STERLING BLOCKS ARTHUR'S ACCESS TO HIS DOCKET TO HELP HIS MOTHER

When a person is exposing major corruption in the public sector, they start to find strange and unusual things happening to them. Once in a while, bad luck happens to everyone. But, when strange things happen on a regular basis while that person is exposing such corruption, those events are being done deliberately by someone to scare and warn a person to back off. In Russia, when people become a problem to the government, they usually have a "accidental" fall from a tall building.

This website shows, document, pictures, video, transcripts and court documents of various people, including corrupt guardians of person and estate, corrupt lawyers, corrupt "care managers", corrupt psychologists and 2 corrupt judges. Those corrupt people work together (S 241 and 242) to have people, usually elderly, using fake psychological "evaluations" to have the victims declared "incapacitated". The victims are given court appointed corrupt guardians, who hire their friends, at the victims expense, to steal the victims money, house and other assets. This website PROVES the existence of such a massive "guardian mafia" that has existed for decades in the Montgomery county courts, especially the Orphans court. For over 25 years, on Facebook, there has been a massive site called Shenanigans in the Montgomery County Court.

These documents I sent to corrupt judge sterling, who took over from corrupt judge weilheimer, in mid 2023, show I educated sterling on the matter of the ongoing massive guardianship corruption on my Mother, starting at age 96 by Mother's then 70 year old daughter, jsh, also a part of this mafia. I also informed sterling, in mid 2025, that my court docket was being block so I could not access the same items the lawyers could. I was pro se. Sterling never cared. She only did what the mafia wanted her to do. I also told sterling how corrupt judge weilheimer had the county IT person block my email address to all county agencies that help with elder problems and the DA, sheriff and the board of commissioners. Sterling's lawyer assistant, bookler, tried to BS me by saying she needed to know all of the email addresses I used to those agencies. BS! Sterling/mafia just wanted to know who I was dealing with so they could try to stop them from helping me. The fact is, that county IT person, olivieri, did NOT know those addresses when he blocked them. Anything he did to block them, he can undo. Sterling/mafia never unblocked those email addresses.

What was sterling's kickback rate from the mafia?

Re: Jane Herring 2021-X2110

Dear Judge Sterling,

I just received Mr. Gelsinger's letter dated December 21 2023 where he says he has another trial and the January 23 hearing must be continued. I was apparently not included in the original mailing.

I totally disagree with him. There are other lawyers involved with this case, including Blumer's husband. January 23 is when a new guardian of person for my Mother should be determined. The current guardian, Pam Blumer has already resigned. This is a matter of great urgency to my almost 99 year old Mother who has been treated and kept like a dog in a cage since October 2021 by first guardian Logie and then Blumer. I have been fighting for 2 years to get my Mother home as the court appointed psychologist, Ledakis, said she could stay in his first report.

My Mother has been kept in basic solitary confinement, in a sensory deprived environment since October 2021. She has no phone, no table, kept in a locked in section with people with mental and behavior problems, no food allowed even though she has no food allergies and no diet restrictions, no mail allowed, no friends allowed (not even ministers), has not been allowed back to her large 3 bedroom, 3 bath, no mortgage house, in a gated community where she has lived happy and free for 21 years to see her loved possessions and to enjoy the life she had before this guardianship scam was started just for her money and house. I had lived at her house for about 1.5 years and had seen her every day for dinner, for about 6 hours, after my father had died in January 2013. I knew Mother better than anyone, including her primary doctor of 21 years. My Mother was still driving her car safely without any tickets or accidents for over 50 years when she was declared incompetent without being present in Court to express her wishes on her competency.

The current cost of Mother's tiny room is about \$90,000 a year, but the court accepted the cost of Mother's home is only \$16,500 a year. I had also found many much nicer, much bigger and much cheaper places for Mother to live if she could not live at home, but for unknown reasons and never said, the others have refused to do so. There has been NO, repeat NO, reason why my Mother had to be kidnapped and removed without notice and dragged from her home by her daughter and Logie in August 2021, forced to stay as a prisoner at my sister's house. Mother was refused to leave, was refused to call me and was refused to see me. The first day Mother was forced to take medication to keep her quiet. After 2 weeks, Mother had to be taken to the hospital, unconscious, by ambulance, confined to bed for 6 weeks, treated for starvation, daily blood tests (42 times) daily needles to the stomach to prevent blood clots (42 times) and then got covid where she could have died.

In about February 2022, judge Weilheimer removed all visit restrictions and times to my sister, but reduced my visits to only 2x a month and 1 hour per visit (from 3 originally and unlimited phone calls). The so-called paid "monitor" was started by Blumer in November 2022 based only on heresay by blumer. Nobody has ever put such claims by the staff or in court of claimed "agitation" by me to Mother. Nobody ever asked my Mother if such lies were true. Why not? Why did Judge Weilheimer even put any visit restrictions on? Because of those visit restrictions which have been constantly reduced as per Jaskowiak's demands, from September

2021 to January 1 2024, out of a possible 13,320 hours I could have been with my Mother (16 hours per day, 8 for sleeping) we have only been allowed 224 hours. How inhumane to a now almost 99 year old person. I have many written notes by my Mother of how much she loves me, wants to be with me and how much she trusts me with her care if she ever needs it, like now. When she goes home, my father's private bedroom and bath is there for any care worker if she ever needs one. I can do almost every thing for her, except if she ever needs shower or toilet assistance. I have spent every penny I have trying to protect my Mother and to get her back home to live again happy and free to enjoy her life. There is no reason why she has to be kept there locked up at Manatawny Manor.

There has been no proof of me ever "agitating" my Mother or causing her legs to be swollen as has been claimed for 2 years. The allegations of cell phone use have never been proven. When I did bring out my cell phone, it was when my phone rang, text messages or to see what time it was because I could only stay an hour. For the past 2 years, Blumer has denied Mother and me to be together on birthdays, Thanksgiving, Christmas, Valentines Day, Mother's Day, Easter, Good Friday and other special days. Blumer had no reason for that! POW's and people in prison for all types of crimes have more privileges than my mother. WHY?

I have been denied a cell phone to record visits by jaskowiak, Gelsinger and court to protect myself from lies by their "monitors". The claim is a cell phone would violate Mother's privacy. But, they want THEIR hand picked "monitors" to be able to write lies about me to further reduce my visits to none for exposing this guardianship scam. They refuse to release monitor's qualifications to do this legal work. But, a total stranger sitting next to us, making notes, taking our pictures, listening to our private conversation is NOT violating Mother's privacy and mine? Under Title 20, section 5521 and reinforced by the new law SB 506, MOTHER is the one who decides how she wants her guardianship to be run and how the guardians must act. Nobody has ever asked Mother what she wants and she has always been refused to come to court to speak.

My solution about this cell phone issue is extremely simple. I do not know why none of the guardians, their lawyers, jaskowiak, Klock ("care manager" hired by logie and kept on by Blumer) or anyone has ever mentioned it. Answer: no cell phone allowed in the room during my visit. Simple and perfect. We used to have lunch in her room in private and phone calls during the day. Under Blumer, she made up those claims that I "agitate" Mother and my food caused Mother's legs to swell to cancel our lunches and phone calls as more punishment to me for exposing the guardianship scam. I keep proving guardians, their lawyers, jaskowiak, Klock and court are NOT doing their jobs to keep Mother healthy, happy and physically and cognitively fit.

As per proposed guardian Mahoney, I believe he will be dedicated to my Mother's wants and needs and I have no objection to Mr. Mahoney. Pam blumer has already resigned and it is imperative a new guardian be appointed now. Jaskowiak claims he has someone else. But, he promoted his friend Logie, who he had used many times and Blumer, whose husband is a friend of his and look how destructive they were to my Mother's health, wellbeing, happiness and her finances. In his acceptance letter, Mr. Mahoney strongly shows he is dedicated to his clients wants and needs, as per PA Title 20, section 5521 and PA SB 506.

I want my Mother to be healthy, happy and free to enjoy her life as it should have been for the past 2 years. Mother wants to go home and put his nightmare behind her. She deserves to have the rest of her life the way it was or some reasonable less restrictive environment as required by law.

Sincerely,

Arthur Herring III

Judge Sterling,

On February 20, 2025, I was in the Register of Wills to get documents from April 2024 to present. Due to circumstances last year, I was not able to go in to get them as I had been doing until that time. While I was there and being followed by sheriff deputies for unknown reasons, I was told by the clerk I had to fill out a request form for them. I did so. About 10 minutes later, Ms. Bookler arrived and asked me why I wanted the documents. I did not see a reason to explain why I wanted them since the documents pertained to my Mother and the fake guardianship scam on Mother by the guardianship mafia, for 3 years, only for her financial assets.

That scam later resulted in Mother being killed by the guardian mafia with morphine. Mother died unconscious, an extremely horrible, slow, painful, barbaric and inhumane death by starvation and dehydration. She was not even given the dignity of hospice and allowed to have any last wishes, which would have included being with me for as long as possible, going back to her loved home of 21 years and her much loved possessions of almost 100 years.

I told Ms. Bookler I wanted the documents, as I was entitled to have them as the son of Mother, for research. She said she would let me know if such a request was going to be granted. As of the date above, I still have not received any answer.

As I am sure you are aware, the illegal blocking of my email to all county agencies that weilheimer had the county IT person, Olivieri, do in spring 2023 to all county agencies, including sheriff, DA, county commissioners, etc, is still in effect. As you recall, I filed an emergency petition to you to unblock my email to those county agencies so I could continue to help my Mother during the scam. My petition was denied by you. You/Ms. Bookler claimed Olivieri needed all of the people's names I had been emailing to unblock them. That was not true. As I had informed you/Ms. Bookler, whatever Olivieri did to block my email to those people/agencies, he can undo it since he did not know those names when he blocked them.

I have not received any response from you/Ms. Bookler for the past 20 days if I am going to be given those documents. Why?
