

PAM BLUMER COMMITTED FRAUD

When pam blumer was appointed guardian of person to Mother by corrupt judge and thief weilheimer in may2022 and also appointed corrupt and thief fenstermacher as guardian of estate, blumer claimed she was a certified guardian. BS! She was not and by summer 2026, still was not. Fenstermacher and Cynthia ellis (replaced pam blumer in about February 2024) also never were certified to be guardians. Pam blumer the day she was appointed, hired her husband bill, to be her lawyer and then he hired other lawyers at his law firm barley Snyder. Pam blumer had NO legal right to hire her husband and he and ALL of those lawyers never had any legal right to charge Mother for their billing hours, about \$150,000. All of those lawyer costs were the sole responsibility of pam blumer operating her business. She admitted in court she had about 70 clients in her 8 years as a business at the time. Did she bill ALL of her victims for lawyer fees?

Fenstermacher, after mother killed/died in July 2024, became the executor of her estate and began billing \$500 for administrative work, but he had no right to charge that much money by law. Fenstermacher should never have taken the job of guardian of estate because he he was giving away money that at some point would be inheritance for Mother's children. He admitted in court he thought his job as guardian of estate was to sign checks for the others AND he said he did not care about waste and fraud of those invoices he wrote checks for. WTF?

Now, in July 2026, fenstermacher claims he is just going to give away another \$150,000 to those remaining claims of jaskowiak, pam blumer and barley Snyder. Fenstermahcher is NOT and NEVER was acting in the benefit of Mother OR her children for their inheritance.
