

GO FUND ME

About mid 2023, I ran out of money for lawyers many months ago. I was pro se trying to get Mother home. I set up a Go Fund Me account to raise money for a lawyer. I used a fake name for Mother and where she lived because Mother's mafia shister, "cry baby" Jaskowiak, had put me into prison twice in 2021 and 2022 for revealing information about the scam on Mother on my news website. My site had only been up for a few weeks when "cry baby" Jaskowiak threatened me again with prison because he claimed my site was "violating her right of privacy". BS!

I guess cry baby did not think having a 96 year old person, HIS client, kidnapped from her home of 22 years for ownership by the mafia and only for her vast assets, did not violate Mother's right of privacy. WTF?

I decided to take down the site. The mafia did not want me to make money to hire a lawyer to help Mother. Just like corrupt judge weilheimer had the county IT person block my email to all county agencies that I was using to help Mother get home. What weilheimer did were many felonies, including later corrupt judge sterling refusing to unblock my emails to those agencies.

Bring Estella home

Arthur Herring is organizing this fundraiser.

Estella was declared a slave for life by the corrupt Orphans Court of Montgomery County, Pennsylvania in August 2021. Her body, soul and life are not hers anymore to enjoy. Estella's large house, her loved possessions and antiques since childhood and all of her assets that her late husband earned and saved for her and his children, are now owned by the corrupt judge, corrupt guardians and the corrupt lawyers in her case. For 1.5 years, I have been trying to free her from those criminals and bring her home to enjoy her life and be happy.
