

CARE MANAGER KLOCK

Many people have been victimized by "care managers". My Mother and many others were a victim of one of them: Deb Klock. Klock runs a guardian type business, BUT she is still not certified to be a guardian by July 2026.

Klock was hired by a so-called guardian, Dwayne Logie (who never did anything for Mother's benefit). Logie was the first appointed guardian of person and guardian of estate by corrupt judge weilheimer to Mother in early August, 2021. Logie was appointed by weilheimer just after Mother was declared "incapacitated" by weilheimer on August 6, 2021. Weilheimer NEVER gave Mother/me any time to find our own guardian of person or estate. Why???? As you recall, weilheimer had the county IT person, Olivieri, block my email address to ALL county agencies that I was using to help my mother come home. Weilheimer lied to me and claimed she was only blocking my email address to her office. Many felonies were committed by weilheimer doing that.

After Logie quit in May 2022 because of me exposing his gross corruption and incompetence, he was replaced by Pam Blumer as only guardian of person. Blumer lied when she was hired that she was certified as a guardian. She claimed she charged \$100 per hour, but after a month, she gave herself a \$30 pay raise to \$130 an hour. Blumer not only kept Klock on (why?), so did the last guardian of person Cynthia Ellis (also was never certified to be a guardian) until Mother was killed/died on July 2, 2024. Blumer quit in February 2024 because I had been exposing Blumer's gross incompetence and corruption. Ellis became the last guardian of person to Mother. Ellis also kept Klock on (Why?). Ellis was also good friends of Jaskowiak. Blumer's corruption includes Blumer hiring her husband Bill as a lawyer and he hired many lawyers at his law firm to make more money for everybody in the guardian mafia. They all billed Mother. Pam and Bill Blumer were very close friends of cry baby Jaskowiak. Jaskowiak was friends with basically everybody involved in the guardian mafia. None of those people had the legal authority to hire who ever they wanted, buy what ever they wanted and bill Mother. Especially, lawyers and their fees for their people.

Why did Logie, Blumer and Ellis hire and then keep Klock on when they were guardian of person to Mother. The guardian of person's only job was to take care of Mother. WTF?
