

FBI DOES NOT LIKE LETTERS TAPED TO THEIR DOOR

During the guardianship scam on Mother, I and others went to the FBI local office in Ft. Washington, PA. We all got the same answers, just like from DA steele in Norristown. Guardianship scam is a civil matter, not a criminal one. BS! There are too many laws that say they are criminal. For example, it was the Philadelphia FBI, along with the local DA, DOJ and the IRS that prosecuted and convicted Gloria Byers for stealing about \$1 million from her 105 victims.

From 2021-2024, I was disgusted with the FBI ignoring the massive theft and caging of my Mother in a low rated nursing home and kept in solitary confinement until her killing/death on July 2 2024.

I went to the FBI office in Ft. Washington and 2 different times taped my message to them. They were not happy. They sent me a email telling me if I came there again, they would have me arrested for trespassing. The FBI wants to ignore major crimes on many elderly victims, but arrest me for taping a sign on their door humiliating them and telling them to do their job. WTF?
