

LOBACH, SENIOR PARTNER OF BARLEY/SNYDER

Lobach and all of his 70 or so lawyers got emails (posted) from me while the corrupt guardianship scam was ongoing on my Mother. I told lobach and those lawyers that all they were doing was making billing hours for themselves and your firm just to make money. That is NOT what lawyers are supposed to do. My Mother was pam blumer's client as her guardian of person and blumer was supposed to be looking out for the wellbeing and happiness of Mother, NOT trying to drain Mother's bank account for her (pam) benefit, her lawyer husband's bill paycheck, his self glory and for the financial benefit of his law firm. I told lobach that there was no need to have so many lawyers or any lawyers because there were no matters that required lawyers. All the problems could be easily solved with just brief meetings, NOT every lawyer talking to each other lawyer and all billing Mother. I found all of the problems pertaining to Mother in her pig pen. I had to waste my time composing and filing petitions and replying to them of the lawyers only because those shisters wanted to create billing hours only for their financial benefit, NOT to solve problems for Mother's benefit. Pam blumer never was a certified guardian and she even lied that she was when she was hired for Mother. Blumers are good friends of another shister, jaskowiak, the court appointed shister to Mother by corrupt judge weilheimer. I always tried to help Mother tolerate being in her pig pen, in solitary confinement, in a sensory deprived environment for her 3 years there. NONE of the other shisters, blumer and a crook "care manager", klock, ever looked at the quack psychologist's report by ledakis that said Mother could live at home and everything was fine at home.

Was it too much to ask that those crooks know the elderly person (96-99) that they owned?

meet

Mr. Lobach,

I called you yesterday and left a message, but I did not hear back from you.

You have received my email I sent to you and your 71 partners on Tuesday about the guardianship corruption on my 98 year old mother. Two of your attorneys, Blumer and Gelsinger are the lawyers for Pam Blumer, guardian of person of my mother. Mother's money, her health and her happiness are being depleted rapidly for no reason. My mother is a human being, not just a bank account for others to take. For the 10 months Ms. Blumer and those two attorneys have been involved, my mother has suffered needlessly in many ways. I have been denied the joy of mother being with me each day as we were before my 72 year old sister started the fake petition in May 2021, only to grab control of my mother's money and assets as she has tried several times before. I have always stopped those attempts.

There has been no situation or problem that a simple meeting could not have fixed, without all of those wasted billing hours and back and forth paper work of lawyers. So far, my mother has been treated like she does not exist, except for her bank accounts to drain. So far, none of the guardians or lawyers have asked my mother what she wanted in different matters. My mother is lucky to get a hair appointment once every two months, when she used to have them every week. The fact is, my mother does have a right to be consulted and asked what she wants, if nothing else than common courtesy. She still has common sense and knows right from wrong. Her guardian of person, guardian of estate and court assigned lawyer for mother have completely refused to talk to her or me about various matters that directly affect her life, health, happiness and her finances. That proves they are in this guardianship only for their own financial self interests.

Mother has a large, 3 bedroom, 3 bath house in a private gated community she/late husband has owned for 21 years. There is no need at all for her to be locked down in a tiny room, basically in solitary confinement for 18 months, no doctors appointments for 18 months, not allowed outside or in public for 18 months, no phone, not allowed to go to her home to see her loved possessions or enjoy the happiness of life. She was only, repeat only, stated to have a small memory issue and forgetfulness that to this day does NOT have any affect in her normal daily living (eating, dressing, bathing, toilet, brushing teeth, etc). She could just as easily live at home. Why isn't she? My mother was never claimed to have any mental disorders that made her a threat to herself or others.

Let's meet at your location as soon as possible to work things out for my mother and your firm's client. Would you want your mother or father or yourself to be treated the way my mother has and is being exploited, controlled and used just so someone else can make money off of them?

sincerely,

arthur herring III
